*Studies in Language Origins* Jan Wind, Abraham Jonker, Robin Allott, Leonard Rolfe, 1994-01-01 This collection brings together the best papers presented at recent meetings of the Language Origins Society The volume reflects the diversity of approaches from many disciplines that are used to unravel the mystery of the origin of language linguistics anatomy physiology paleoanthropology neuropsychology physical anthropology evolutionary biology and psychology *Studies in Language Origins* Jan Wind, Edward G. Pulleyblank, Bernhard H. Bichakjian, 1989-01-01 The question of language origin has fascinated people for years Traditionally humanists like linguists and philosophers attempted to solve it with limited success In the last decades however the sciences have begun to study the same question seemingly with more success This book is the result of the activities of a group of scholars members of the Language Origins Society who approach the problem not only from the viewpoint of linguistics but also from that of anatomy physiology social sciences physical anthropology paleoanthropology paleontology comparative zoology general biology ethology evolutionary biology and psychology The volume thus clearly reflects the interdisciplinary approach the Language Origins Society is advocating Since this book is the first of a series meant for the general scholar it attempts to avoid specialist jargon Hence it is equally useful for student courses in linguistics social sciences communication science ethology evolutionary biology and speech therapy **Studies**
