Studies In The Bible And Science:

Studies in Bible and Science Henry Madison Morris, 1966 **Studies in the Bible and Science** Henry M. Morris, 1966-01-01 The Evolution Controversy in America George E. Webb, 2002-07-01 On April 30 1975 Saigon and the government of South Vietnam fell to the communist regime of North Vietnam ending for American military forces exactly twenty five year of courageous but unavailing struggle This is not the story of how America became embroiled in a conflict in a small country half way around the globe nor of why our armed forces remained there so long after the futility of our efforts became obvious to many It is the story of what went wrong there militarily and why The author is a professional soldier who experienced the Vietnam war in the field and in the highest command echelons General Palmer s insights into the key events and decisions that shaped American s military role in Vietnam are uncommonly perceptive America s most serious error he believes was committing its armed forces to a war in which neither political nor military goals were ever fully articulated by our civilian leaders Our armed forces lacking clear objectives failed to develop an appropriate strategy instead relinquishing the offensive to Hanoi Yet an achievable strategy could have been devised Palmer believes Moreover our South Vietnamese allies could have been bolstered by appropriate aid but were instead overwhelmed by the massive American military presence Compounding these errors were the flawed civilian and military chains of command The result was defeat for America and disaster for South Vietnam General Palmer presents here an insider s history of the war and an astute critique of America s military strengths and successes as well as its weaknesses and failures *Studies in the Bible and Science* Henry Madison Morris, 1973 **Science, Creation and the Bible** Richard F. Carlson, Tremper Longman III, 2010-09-07 Physicist Richard Carlson and biblical scholar Tremper Longman address the long standing problem of how to relate scientific description of the beginnings of the universe with the biblical creation passages found in Genesis Experts in their respective fields these two authors provide a way to resolve seeming conflicting descriptions Homosexuality, Science, and the "plain Sense" of Scripture David L. Balch, 2000 Homosexuality is arguably the most hotly contested topic in the church today Taking up the issue from both poles of the discussion this volume by eleven biblical scholars psychologists and theologians canvasses the debate over the meaning of the scriptural passages on homosexuality from Genesis Leviticus Romans and 1 Corinthians in light of contemporary scientific and exegetical evidence Contributors David L Balch Phyllis A Bird Nancy J Duff David E Fredrickson Kathryn Green McCreight Christine E Gudorf Robert Jewett Stanton L Jones William R Schoedel Christopher Seitz Mark G Toulouse Mark A Yarhouse The Johns Hopkins University Studies in Historical and Political Science , 1900 *An Orthodox Understanding of the Bible with Physical Science* Geoffrey Ernest Stedman, 2012-08-27 For centuries the Christian world and the scientific world have supposedly been at odds Those who strictly believe that God created the universe have had difficulty accepting such scientific concepts as the speed of light the immense distances of astronomy and the long ages of radioactivity and earth science This book bridges the gap between

scientific and Christian beliefs by asking the reader What if both sides are parallel revelations by God An Orthodox Understanding of the Bible With Physical Science is a mixture of Biblical exposition and explanation of modern physical science including relativity and quantum theory The book also includes a chapter of scientific parables for children *THE FIRST AND THE LAST Studies in Chronology, Science, and the Flood* Arthur Eedle, 2020-01-23 An archival work with studies from 1964 1989 2004 Subjects covered are Biblical Chronology the Genesis Flood Creation and Evolution Time and Age Relativity and an analytical translation of Genesis 6 9 together with verse by verse notes **Evangelicals and Science in Historical Perspective** David N. Livingstone, D. G. Hart, Mark A. Noll, 1999-04-08 In the eighteenth and nineteenth centuries evangelicals often took their place among prominent practicing scientists and their perspectives exerted a considerable impact on the development of modern western science Over the last century however evangelical scientists have become less visible even as the focus of evangelical engagement has shifted to political and cultural spheres *Evangelicals and Science in Historical Perspective* offers the first wide ranging survey of the history of the encounter between evangelical Protestantism and science Comprising papers by leading historians of science and religion this collection shows that the questions of science have been central to the history of evangelicalism in the United States as well as in Britain and Canada It will be an invaluable resource for understanding the historical context of contemporary political squabbles such as the debate over the status of creation science and the teaching of evolution
