Studies in the Social History of Modern Egypt Gabriel Baer,1966 Studies in the Social History of Modern Egypt Gabriel Baer,1969 The Urban Social History of the Middle East, 1750-1950 Peter Sluglett,2008-12-08 The great cities of the Middle East and North Africa have long attracted the attention and interest of historians With the discovery and wider use over the last few decades of Islamic court records and Ottoman administrative documents our knowledge of Middle Eastern cities between the seventeenth and early twentieth centuries has vastly expanded Drawing upon a treasure trove of documents and using a variety of methodologies the contributors succeed in providing a significant overview of the ways in which Middle Eastern cities can be studied as well as an excellent introduction to current literature in the field **A History of Islamic Societies** Ira M. Lapidus,2002-08-22 Ira Lapidus classic history of the origins and evolution of Muslim societies revised and updated for this second edition first published in 2002 **Egypt's Agricultural Development, 1800-1980** Alan Richards,2019-04-18 This book uses both microeconomic theory and social and political analysis to show how the interaction of social classes technical change government policy and the international and state systems have shaped Egypt s agricultural development The History of Egypt Glenn E. Perry,2015-12-01 Providing a valuable resource for readers seeking information on all periods of Egyptian history this book covers Egypt starting from ancient times and continuing through the medieval Islamic period to focus on the events of the last 100 years including the aborted revolution of 2011 Egypt has experienced tumultuous events in recent years especially starting with the uprisings and revolution of 2011 This second edition of The History of Egypt not only provides readers with in depth information on events of the last decade such as the Arab Spring the removal of Hosni Mubarak from office and the protests against Mohamed Morsi s presidency but also provides key background with chapters addressing previous periods of the country s history starting from pre Islamic times to pharaonic to Byzantine The volume offers an objective history of Egypt that is uniquely appropriate for a high school audience This expanded and extensively updated second edition provides new content and media photographs that help bring recent events to life for readers without previous knowledge about the topic It also includes coverage of important events in long ago Egyptian history that lends valuable perspective to events in the 21st century such the nation s transformation into a Muslim and Arab country and Egypt s post 1778 imperialism and modernization through World War I *The Large Landowning Class and the Peasantry in Egypt, 1837-1952* Raouf Abbas,Assem El-Dessouky,2022-09-01 In Egypt the landowning class first arose in the early part of the nineteenth century from land grants given to extended family members and friends of the ruler Muhammad Ali The development of capitalism and with it the evolution of law and social practice allowed these land grants gradually to take on the attributes of private property a process that culminated in 1891 in land becoming a form of property like any other From these developments a class of large landowners emerged and began to defend their interests both economic and political In two seminal Arabic works published in the 1970s the authors Abbas and

El Dessouky traced the formation of this class exploring the multiple factors that influenced the rise and power of landowners Combined into one volume and translated into English for the first time this book offers a comprehensive analysis of landownership and its effects on Egyptian society The authors draw from extensive archival sources successfully integrating in their work the competing forces of the state the landlords and the peasants By moving beyond much of the familiar scholarship on landholders this book presents a new interpretation of Egyptian politics and society *Disciples of the State?* Kristin Fabbe,2019-03-28 As the Ottoman Empire crumbled the Middle East and Balkans became the site of contestation and cooperation between the traditional forces of religion and the emergent machine of the sovereign state Yet such strategic interaction rarely yielded a decisive victory for either the secular state or for religion By tracing how state builders engaged religious institutions elites and attachments this book problematizes the divergent religion state power configurations that have developed There are two central arguments First states carved out more sovereign space in places like Greece and Turkey where religious elites were integral to early centralizing reform processes Second region wide structural constraints on the types of linkages that states were able to build with religion have generated long term repercussions Fatefully both state policies that seek to facilitate equality through the recognition of religious difference and state policies that seek to eradicate such difference have contributed to failures of liberal democratic consolidation The Prophet's Pulpit Patrick D. Gaffney,2023-07-28 Muslim preaching has been central in forming public opinion building grassroots organizations and developing leadership cadres for the wider Islamist agenda Based on in depth field research in Egypt Patrick Gaffney focuses on the preacher and the sermon as the single most important medium for propounding the message of Islam He draws on social history political commentary and theological sources to reveal the subtle connections between religious rhetoric and political dissent Many of the sermons discussed were given during the rise of Islamic fundamentalism and Gaffney attempts to describe this militant movement and to compare it with official Islam Finally Gaffney presents examples of the sermons so readers can better understand the full range of contemporary Islamic expression Muslim preaching has been central in forming public opinion building grassroots organizations and developing leadership cadres for the wider Islamist agenda Based on in depth field research in Egypt Patrick Gaffney focuses on the preacher and the sermon **Monarchy and Modernity in Egypt** James Whidden,2013-09-27 The creation of the Egyptian monarchy in 1922 under King Fuad II opened contests and debates over fundamental cultural questions particularly definitions of Egyptian modernity rule and identity Here James Whidden looks at the political cultural and intellectual landscapes of Egypt between the wars from the nationalist agitations for independence in 1919 the rise of the Wafd first under Saad Zaghul and then Mustafa El Nahas Pasha and the rise and fall of different political and power brokers in the period such as Abd al Latif al Makkabati or Abd al Khaliq Tharwa Whidden therefore focuses on the different interpretations of the nature of Egyptian politics highlighting the ways in which patriotism and elitism Islam and tradition colonial manipulations and ideological politics combine In particular he examines

how monarchists like Zaki Fahmi and Diaeddine Saleh attempted to neutralise opponents through cultural works patronage and political party contests The period under examination was to a large extent defined by the revolution of 1919 and the constitutional and electoral processes that followed The sectors of society involved in this were the effendiyya and the notables such as Zaghul But these were soon dominated by the monarch as the Wafd party allied with the king Bearing this in mind Whidden examines how these notables attempts to mobilise the people in revolutionary activity electoral contest and the formation of political party organization in this period Although a liberal constitution was written by an appointed constitutional commission in 1923 Whidden argues that the disagreements it occasioned suggest that politics in the interwar period was very much an attempt to redefine or rewrite that constitution to the differing assumptions of liberal nationalists and monarchists Monarchy and Modernity in Egypt is thus a vital resource for those interested in Middle East history as well as intellectual developments within the region
