Studies Voltaire 18th Century Volume 235:

Studies on Voltaire and the Eighteenth Century, 1981 *Comparative Criticism: Volume 18, Spaces: Cities, Gardens and Wildernesses* E. S. Shaffer, 1996-11-07 Addresses literary theory and criticism comparative studies in terms of theme genre movement and influence and interdisciplinary perspectives *The Enterprise of Enlightenment* Terry Pratt, David McCallam, 2004 Published on the occasion of his retirement in honour of his outstanding contribution to French Enlightenment studies this volume explores those areas of research in which David Williams has excelled and continues to excel literary criticism particularly Voltaire the history of ideas women and Enlightenment colonial practices and revolutionary politics It brings together a collection of essays from some of the most prestigious international names in the field and tackles subjects which expose in all their splendid diversity the enterprise both innovation and undertaking of the Si cle des Lumi res **Époque Émilienne** Ruth Edith Hagengruber, 2022-07-01 The present book contextualizes Du Ch telet s contribution to the philosophy of her time The editor offers this tribute to an poque miliennee as a collection of innovative papers on Emilie Du Ch telet s powerful philosophy and legacy Du Ch telet was an outstanding figure in the era she lived in Her work and achievements were unique though not an exception in the 18th century which did not lack outstanding women Her personal intellectual education her scholarly network and her mental acumen were celebrated in her time perceiving her to have multiplied nine figures by nine figures in her head She was able to gain access to institutions which were normally denied to women To call an epoch an poque milienne may be seen as daring and audacious but it will not be the last time if we continue to bring women philosophers back into the memory of the history of philosophy The contributors paid attention to the philosophical state of the art which forms the background to Du Ch telet s philosophy They follow the transformation of philosophical concepts under her pen and retrace the impact of her ideas The book is of interest to scholars working in the history of philosophy as well as in gender studies It is of special interest for scholars working on the 18th century Kant Leibniz Wolff Newton and the European Enlightenment **The Rest Is Silence** Joanna Stalnaker, 2025-10-14 A moving intimate portrait of the Enlightenment philosophers as they faced the end of their lives and their historical moment What would the Enlightenment look like if we viewed it through the eyes of the philosophers as they were facing death Joanna Stalnaker turns our usual perspective on the Enlightenment on its head bringing to light a set of works written at the end of the Old Regime and at the end of their authors lives These works all written before the French Revolution cast a retrospective glance over the intellectual movement their authors participated in and over the authors own lives and works Stalnaker shows that the beauty of these works stems from their authors efforts to give literary form to the materiality and fragility of their dying bodies As they reflected on writing as a means of reaching posterity Enlightenment philosophers embraced the possibility that neither their names nor their writings would survive long beyond the decomposition of their bodies They inscribed the silence and nothingness of death into their last works Stalnaker s book unsettles reigning

interpretations of the Enlightenment as a precursor to our modernity and shows its protagonists at their moments of fragility and doubt capturing their sense of an ending rather than the confidence in a glowing future so often attributed to them

Human Nature, Cultural Diversity, and the French Enlightenment Henry Vyverberg, 1989 In this work Henry Vyverberg traces the evolution and consequences of a crucial idea in French Enlightenment thought the idea of human nature Human nature was commonly seen as a broadly universal unchanging entity though perhaps modifiable by geographical social and historical factors Enlightenment empiricism suggested a degree of cultural diversity that has often been underestimated in studies of the age Evidence here is drawn from Diderot's celebrated Encyclopedia and from a vast range of writing by such Enlightenment notables as Voltaire Rousseau and d'Holbach Vyverberg explains not only the age's undoubted fascination with uniformity in human nature but also its acknowledgment of significant limitations on that uniformity He shows that although the Enlightenment's historical sense was often blinkered by its notions of a uniform human nature there were also cracks in this concept that developed during the Enlightenment itself

Sensibility in Transformation Sydney McMillen Conger, 1990-03 Focusing on the period from about 1690 to 1890 these essays depict an age of sensibility that was in transformation New connections are revealed between sensibility and other key preoccupations of the age including the feminine ideal and the poetic imagination

Civil Religion Ronald Beiner, 2010-10-25 Civil Religion offers philosophical commentaries on more than twenty thinkers stretching from the sixteenth to the twentieth century It examines four important traditions within the history of modern political philosophy The civil religion tradition principally defined by Machiavelli Hobbes and Rousseau seeks to domesticate religion by putting it solidly in the service of politics The liberal tradition pursues an alternative strategy of domestication by seeking to put as much distance as possible between religion and politics Modern theocracy is a militant reaction against liberalism reversing the relationship of subordination asserted by civil religion Finally a fourth tradition is defined by Nietzsche and Heidegger Aspects of their thought are not just modern but hyper modern yet they manifest an often hysterical reaction against liberalism that is fundamentally shared with the theocratic tradition Together these four traditions compose a vital dialogue that carries us to the heart of political philosophy itself

Studies in Church History: Centuries XVII.-XVIII Reuben Parsons, 1897

The Rise of the French Novel Martin Turnell, 1978 Martin Turnell's *The Rise of the French Novel* is a successor to his highly praised earlier books *The Novel in France* 1951 and *The Art of French Fiction* 1959 His aim now however is somewhat different as can be seen from the title It is well known that the reputations of many writers novelists especially diminish for a period following their deaths Although in the eighteenth century Marivaux Crillon and Rousseau all enjoyed a great deal of popularity during their lifetimes it is only recently that they have been subject to truly searching studies Yet they remain little read in English speaking countries Turnell emphasizes that in spite of the hostility of French critics and the fact that the novel did not reach its supremacy even in France until the nineteenth century the beginning of its great rise was indeed with such writers as these

Their strong influence led such nineteenth century novelists as Stendhal and Flaubert to all kinds of changes related to style the enormous increase in the range of subject matter and the marked development of language Flaubert is the most striking example It was pointed out some time ago by Eisenstein that Madame Bovary anticipates cinematic technique One of Turnell s most interesting chapters explores the connections between the novel and film in general and Madame Bovary in particular In our own time two of the most popular French novelists in both the United States and England are Alain Fournier and Radiguet They are given enthusiastic appreciations in Turnell s thoughtful book
