Berkeley and Irish Philosophy David Berman, 2005-08-20 The first essay in David Berman s new collection examines the full range of Berkeley s achievement looking not only at his classic works of 1709 1713 but also Alciphron 1732 and his final book the enigmaic Siris 1744 Item two examines a key problem in Berkeley s New Theory of Vision 1709 why does the moon look larger on the horizon than in the meridian The third item criticizes the view still uncritically accepted by many that Berkeley s attacks on materialism are levelled against Locke Part 2 opens with Berman s two essays of 1982 the first to show that Berkeley came from a rich and coherent Irish philosophical background Next comes a discussion of the link between Berkeley and Francis

Hutcheson and particularly their answers to the Molyneux problem which Berman takes to be the root problem of Irish philosophy The fourth essay looks at the impact of the golden age Irish philosophy on eighteenth century American philosophy where again Berkeley has a central position The last item examines Berkeley's influence on Samuel Beckett Part 3 shows the many sidedness of Berkeley's career which is missed by those who concentrate exclusively on his work of 1709 1713 Each item here presents new material on Berkeley's life or on his works and thought most of these are new letters not included in the Luce Jessop edition of the Works of Berkeley This section therefore can be seen a supplement to volumes 8 and 9 of the Works and also to Luce's Life of Berkeley

Bad Books Amy S. Wyngaard, 2013 *Bad Books* reconstructs how the eighteenth century French author Nicolas Edme Rétif de la Bretonne and his writings were at the forefront of the development of modern conceptions of sexuality and pornography Although certain details are well known for example that Rétif's 1769 treatise on prostitution *Le Pornographe* is the work from which the term pornography is derived or that he was an avid foot and shoe fetishist much of this story has been obscured and even forgotten including how the author actively worked to define the category of obscenity and the modern pornographic genre and how he coined the psychosexual term fetish and played a central role in the formation of theories of sexual fetishism in the late nineteenth and early twentieth centuries Thus this book is also about literary history and how it is written it explores how Rétif perceived as a bad author in both senses of the term and his contributions were glossed over or condemned such that the originality of his texts has still not been fully established Placing Rétif's novels and short stories in dialogue with his autobiographical writings as well as with contemporary and modern critical commentaries the various chapters of the book examine the author's repeated testing of the limits of censorship to define and redefine the boundaries of obscenity his advancement of the modern form and definition of pornography through a focus on intimacy and female pleasure his detailed narrative explorations of foot and shoe fetichisms that were later appropriated by the sexologists and his development of theories of eugenics and reproduction in his utopian science fiction The history of Rétif's texts and their reception reveals an evolution in the criteria of what is considered to be good or worthy literature a category once defined purely on moral grounds that is increasingly seen in cultural terms *Bad Books* corroborates the recent resurgence of interest in the author by showing the import of his texts which not only designate a number of firsts in the histories of sexuality and pornography but which also illuminate some of the defining moments in the history of French literary studies
