Studies In Chinese Thought:

Studies in Chinese Thought Derk Bodde, 1953 **Studies in Chinese Thought** Arthur F. Wright, 1953 **Studies in Chinese Philosophy and Philosophical Literature** Angus Charles Graham, 1990-01-01 Graham addresses several fundamental problems in classical Chinese philosophy and in the nature and structure of the classical Chinese language. These inquiries and reflections are both broad based and detailed. Two sources of continuity bring these seemingly disparate parts into a coherent and intelligible whole. First, Graham addresses that set of fundamental philosophical questions that have been the focus of dispute in the tradition and that have defined its character: What is the nature of human nature? What can we through linguistic and philosophical scrutiny discover about the date and composition of some of the major texts? What sense can we make of the Kung sun Lung sophistries? A second source of coherence is Graham's identification and articulation of those basic and often unconscious presuppositions that ground our own tradition. By so doing, he enables readers to break free from the limits of their own conceptual universe and to explore in the Chinese experience a profoundly different world view. *Studies in Chinese Thought* Arthur F. Wright, 2003-01-01 **Studies in Chinese Thought; Edited by Arthur F. Wright. With Contributions by Derk Bodde (And Others).** Arthur F. Wright, 1967 **After Confucius** Paul R. Goldin, 2017-04-01 After Confucius is a collection of eight studies of Chinese philosophy from the time of Confucius to the formation of the empire in the second and third centuries B C E. As detailed in a masterful introduction, each essay serves as a concrete example of thick description, an approach invented by philosopher Gilbert Ryle which aims to reveal the logic that informs an observable exchange among members of a community or society. To grasp the significance of such exchanges, it is necessary to investigate the networks of meaning on which they rely. Paul R. Goldin argues that the character of ancient Chinese philosophy can be appreciated only if we recognize the cultural codes underlying the circulation of ideas in that world. Thick description is the best preliminary method to determine how Chinese thinkers conceived of their own enterprise. Who were the ancient Chinese philosophers? What was their intended audience? What were they arguing about? How did they respond to earlier thinkers and to each other? Why did those in power wish to hear from them and what did they claim to offer in return for patronage? Goldin addresses these questions as he looks at several topics including rhetorical conventions of Chinese philosophical literature, the value of recently excavated manuscripts for the interpretation of the more familiar received literature, and the duty of translators to convey the world of concerns of the original texts. Each of the cases investigated in this wide-ranging volume exemplifies the central conviction behind Goldin's plea for thick description. We do not do justice to classical Chinese philosophy unless we engage squarely the complex and ancient culture that engendered it. Studies in Chinese Thought. [By Various Authors.] Edited by A.F. Wright, Etc. (Comparative Studies of Cultures and Civilisations. No. 1.). Arthur Frederick WRIGHT, 1953 **Studies in Chinese Thought** Arthur F. Wright, 1953 Based on papers presented at a conference held by a subcommittee on Chinese thought attached to the Committee on Far Eastern

Studies jointly sponsored by the American Council of Learned Societies and the Far Eastern Association Includes bibliographies **Studies on Contemporary Chinese Philosophy (1949-2009)** Qiyong GUO, 2018-01-29 Guo Qiyong s edited volume on contemporary Chinese philosophy offers a detailed look at research on Chinese philosophy published from 1949 2009 in Mainland China and Taiwan The chapters in this volume are broken down into either major themes or time periods in the history of Chinese philosophy In each chapter after summarizing significant aspects of a particular theme or time period lists are drawn up of the most important works along with comments on their individual contributions This volume allows readers to both familiarize themselves with specific texts and become immersed in the more general philosophical discourse surrounding the history of Chinese philosophy It provides an in depth look into serious debates and major discoveries in Chinese language philosophical scholarship from 1949 2009 *Studies in Chinese Thought, Etc* Arthur Frederick WRIGHT, 1953
