Studies In Classic Maya Iconography:

Studies in Classic Maya Iconography George Kubler, 1969 *Modern Perspectives in Western Art History* W. Eugene Kleinbauer, Medieval Academy of America, 1989-01-01 A collection of essays that reflect the breadth of twentieth century scholarship in art history Kleinbauer has sought to illustrate the variety of methods scholars have developed for conveying the unfolding of the arts in the Western world Originally published by Holt Rinehart and Winston 1971 **The Major Gods of Ancient Yucatan** Karl A. Taube, 1992 **Maya Society under Colonial Rule** Nancy Marguerite Farriss, 2021-08-10 This book traces the history of the Maya Indians of Yucatan Mexico during a four hundred year period from late preconquest times through the end of Spanish rule in 1821 Nancy Farriss combines the tools of the historian and the anthropologist to reconstruct colonial Maya society and culture as a web of interlocking systems from ecology and modes of subsistence through the corporate family and the community to the realm of the sacred She shows how the Maya adapted to Spanish domination changing in ways that embodied Maya principles as they applied their traditional collective strategies for survival to the new challenges they faced better under colonial rule than the Aztecs or Incas who lived in areas more economically attractive to the conquering Spaniards The author draws on archives and private collections in Seville Mexico City and Yucatan on linguistic evidence from native language documents and on archaeological and ethnographic data from sources that include her own fieldwork Her innovative book illuminates not only Maya history and culture but also the nature and functioning of premodern agrarian societies in general and their processes of sociocultural change especially under colonial rule *George A. Kubler and the Shape of Art History* Thomas F. Reese, 2023-04-04 An illuminating intellectual biography of a pioneering and singular figure in American art history Art historian George A Kubler 1912 1996 was a foundational scholar of ancient American art and archaeology as well as Spanish and Portuguese architecture During over five decades at Yale University he published seventeen books that included innovative monographs major works of synthesis and an influential theoretical treatise In this biography Thomas F Reese analyzes the early formation broad career and writings of Kubler casting nuanced light on the origins and development of his thinking Notable in Reese s discussion and contextualization of Kubler s writings is a revealing history and analysis of his *Shape of Time* a book so influential to students scholars artists and curious readers in multiple disciplines that it has been continuously in print since 1962 Reese reveals how pivotal its ideas were in Kubler s own thinking rather than focusing on problems of form as an ordering principle he increasingly came to sequence works by how they communicate meaning The author demonstrates how Kubler who professed to have little interest in theory devoted himself to the craft of art history discovering and charting the rules that guided the propagation of structure and significance through time **Heart of Creation** Andrea Joyce Stone, 2002 This accessible state of the art review of Mayan hieroglyphics and cosmology also serves as a tribute to one of the field s most noted pioneers The core of this book focuses on the current study of Mayan hieroglyphics as inspired by the recently deceased Mayanist Linda Schele As

author or coauthor of more than 200 books or articles on the Maya Schele served as the chief disseminator of knowledge to the general public about this ancient Mesoamerican culture similar to the way in which Margaret Mead introduced anthropology and the people of Borneo to the English speaking world Twenty five contributors offer scholarly writings on subjects ranging from the ritual function of public space at the Olmec site and the gardens of the Great Goddess at Teotihuacan to the understanding of Jupiter in Maya astronomy and the meaning of the water throne of Quirigua Zoomorph P The workshops on Maya history and writing that Schele conducted in Guatemala and Mexico for the highland people modern descendants of the Mayan civilization are thoroughly addressed as is the phenomenon termed Maya mania the explosive growth of interest in Maya epigraphy iconography astronomy and cosmology that Schele stimulated An appendix provides a bibliography of Schele s publications and a collection of Scheleana written memories of the Rabbit Woman by some of her colleagues and students Of interest to professionals as well as generalists this collection will stand as a marker of the state of Mayan studies at the turn of the 21st century and as a tribute to the remarkable personality who guided a large part of that archaeological research for more than two decades Mesoamerican Writing Systems Elizabeth P. Benson,1973

Yaxchilan Carolyn E. Tate,2013-08-28 As archaeologists peel away the jungle covering that has both obscured and preserved the ancient Maya cities of Mexico and Central America other scholars have only a limited time to study and understand the sites before the jungle weather and human encroachment efface them again perhaps forever This urgency underlies Yaxchilan The Design of a Maya Ceremonial City Carolyn Tate s comprehensive catalog and analysis of all the city s extant buildings and sculptures During a year of field work Tate fully documented the appearance of the site as of 1987 For each sculpture and building she records its discovery present location condition measurements and astronomical orientation and reconstructs its Long Counts and Julian dates from Calendar Rounds Line drawings and photographs provide a visual document of the art and architecture of Yaxchilan More than mere documentation however the book explores the phenomenon of art within Maya society Tate establishes a general framework of cultural practices spiritual beliefs and knowledge likely to have been shared by eighth century Maya people The process of making public art is considered in relation to other modes of aesthetic expression such as oral tradition and ritual This kind of analysis is new in Maya studies and offers fresh insight into the function of these magnificent cities and the powerful role public art and architecture play in establishing cultural norms in education in a semiliterate society and in developing the personal and community identities of individuals Several chapters cover the specifics of art and iconography at Yaxchilan as a basis for examining the creation of the city in the Late Classic period Individual sculptures are attributed to the hands of single artists and workshops thus aiding in dating several of the monuments The significance of headdresses backracks and other costume elements seen on monuments is tied to specific rituals and fashions and influence from other sites is traced These analyses lead to a history of the design of the city under the reigns of Shield Jaguar A D 681 741 and Bird Jaguar IV A D 752 772 In Tate s view Yaxchilan

and other Maya cities were designed as both a theater for ritual activities and a nexus of public art and social structures that were crucial in defining the self within Maya society The New Catalog of Maya Hieroglyphs, Volume Two Gabrielle Vail, Martha J. Macri, 2012-11-12 This long awaited resource complements its companion volume on Classic Period monumental inscriptions Authors Martha J Macri and Gabrielle Vail provide a comprehensive listing of graphemes found in the Dresden Madrid and Paris codices 40 percent of which are unique to these painted manuscripts and discuss current and past interpretations of these graphemes The New Catalog uses an original coding system developed for the Maya Hieroglyphic Database Project The new three digit codes group the graphemes according to their visual rather than functional characteristics to allow readers to see distinctions between similar signs Each entry contains the grapheme's New Catalog code an image the corresponding Thompson number proposed syllabic and logographic values calendrical significance and bibliographical citations Appendices and an index of signs from both volumes contain images of all graphemes and variants ordered by code allowing readers to search for graphemes by visual form or by their proposed logographic and phonetic values Together the two volumes of the New Catalog represent the most significant updating of the sign lists for the Maya script proposed in half a century They provide a cutting edge reference tool critical to the research of Mesoamericanists in the fields of archaeology art history ethnohistory and linguistics and a valuable resource to scholars specializing in comparative studies of writing systems and related disciplines *The Ashgate Research Companion to Monsters and the Monstrous* Asa Simon Mittman, Peter J. Dendle, 2017-02-24 The field of monster studies has grown significantly over the past few years and this companion provides a comprehensive guide to the study of monsters and the monstrous from historical regional and thematic perspectives The collection reflects the truly multi disciplinary nature of monster studies bringing in scholars from literature art history religious studies history classics and cultural and media studies The companion will offer scholars and graduate students the first comprehensive and authoritative review of this emergent field
