Studies in Thomistic Theology Paul Lockey, Paul Hahn, Janusz Artur Ihnatowicz, John R. Sommerfeldt, 1995-01-01

Employing such topics as methodology ontology anthropology eschatology and morality the contributors to this book draw upon premises from philosophy to serve theological ends By so doing they widen the domain of theology in just the way that Thomas Aquinas himself did **The Oxford Handbook of the Reception of Aquinas** Matthew Levering, Marcus Plested, 2021-01-14 The Oxford Handbook of the Reception of Aquinas provides a comprehensive survey of Catholic Orthodox and Protestant philosophical and theological reception of Thomas Aquinas over the past 750 years This Handbook will serve as a necessary primer for everyone who wishes to study Aquinas s thought and or the history of theology and philosophy since Aquinas s day Part I considers the late medieval receptions of Aquinas among Catholics and Orthodox Part II examines sixteenth century Western receptions of Aquinas Protestant and Catholic followed by a chapter on sixteenth and seventeenth century Orthodox reception Part III discusses seventeenth century Protestant and Catholic receptions and Part IV surveys eighteenth and nineteenth century receptions Protestant Orthodox and Catholic Part V focuses on the twentieth century and takes into account the diversity of theological movements in the past century as well as extensive philosophical treatment The final section unpicks contemporary systematic approaches to Aquinas covering the main philosophical and theological themes for which he is best known With chapters written by a wide range of experts in their respective fields this volume provides a valuable touchstone regarding the developments that have marked the past seven centuries of Christian theology

Ressourcement Thomism Romanus Cessario, 2010 The essays in this volume explore three areas in which St Thomas Aquinas s voice has never fallen silent sacred doctrine the relationship of sacraments and metaphysics and the central role of virtue in moral theology *Thomas Aquinas* Brian Davies, 2002-12-05 The work of Thomas Aquinas has always enjoyed a privileged position as a pillar of Catholic theology but for centuries his standing among western philosophers was less sure Today Aquinas s work is recognized as a cornerstone of the western philosophical tradition This book offers a full scale introduction to Aquinas s philosophy Brian Davies has collected in one volume the best recent essays on Aquinas by some of the world s foremost scholars of medieval philosophy Taken together they illuminate the entire spectrum of Aquinas s thought philosophy of nature logic metaphysics natural theology philosophy of mind philosophy of action and ethics The essays are philosophically solid readable informative critical and evaluative of the texts of Aquinas Davies frames the essays with a detailed introduction that provides an account of Aquinas s life and works as well as of his major philosophical conclusions [Islamic Philosophy of Religion](#) Mohammad Saleh Zarepour, 2023-12-05 This volume focuses on Islamic philosophy of religion with a range of contributions from analytic perspectives It opens with methodological discussions on the relationship between the history of Islamic philosophy and contemporary analytic philosophy The book then offers a philosophical examination of some specific Islamic beliefs as well as some approaches to general beliefs that Islam shares

with other religions The chapters address a variety of topics from the existence and attributes of God through to debates on science and religion The authors are predominantly scholars from Muslim backgrounds who tackle philosophical issues concerning Islam as their own living religion representing internal perspectives that have never been vocal in analytic philosophy of religion so far This is valuable reading for scholars and students of philosophy theology and religious studies

Augustine The level of the scholarly contributions is high and they present some very enlightening perspectives on Augustine and Aquinas while respecting their considerable differences All told the volume makes a fine contribution to the appreciation of the two thinkers who were the most influential on the formation of Christian and Catholic philosophy and theology in the history of Western Christianity Roland J Teske S J American Catholic Philosophical Quarterly This collection of essays clarifies general divergences from and concurrences of St Thomas with Augustine The divergences do not follow a simple Aristotelian versus Augustinian divide This volume dispels this idea and provides guiding insights into Augustinian Thomistic renewal of biblical exegesis and the theologies and philosophies of the Trinity imago dei love and other crucial topics Andrew Jaspers S J Maritain Notebook A stimulating volume T his volume makes good on the editors stated goal of deepening our knowledge of the nature of Aquinas s reception of Augustine Indeed these essays provide a fascinating window into the dynamics of theologic

A Christian Education in the Virtues James Arthur, 2021-06-24 A Christian Education in the Virtues examines the connection between human nature and human flourishing It draws on ancient and medieval sources to explore the formation of the person based on a Christian anthropology emphasising the communal nature of the virtuous life and provides a richer approach to the question of contemporary character education The book argues that the only way to understand and construct our character virtues is to have a clear picture of what is the purpose and meaning of human life It highlights the importance of engaging with moral issues and makes the case that for Christian educators human flourishing is inseparable from God s active relationship to human beings The book also explores a teleological approach to character education goals To educate the whole person in the light of an all embracing Christian

worldview is challenged by secular and liberal ideology and is often seen as irrational to the modern mind Overall the text seeks to demonstrate that many aspects of a Neo Aristotelian Thomist theoretical underpinning for Christian character education holds out a viable option for Christians It therefore argues the case for the educational potential of Christian character education This important book will be essential reading for academics researchers and students in the fields of character and virtue education religious education and the philosophy of education The Open Access version of this book available at www.taylorfrancis.com/books/oa_mono/10_4324_9781003141877 has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
