Object for Contemporary Architecture Beatrice Lampariello, Andrea Anselmo, Boris Hamzeian, 2022-10-18 The first monographic publication focused on the Florentine UFO group 1968 1978 that conducts a historical analysis of its work reveals its close relationship with the contemporary artistic literary and architectural avant garde and finally investigates its legacy for the contemporary project The contemporary context is defined by a unique conjuncture On one hand we witness the revival of the Radical Architecture that from the avant garde experiments of the origins recovers creative processes and iconographic fragments while nullifying the original ideological and political values On the other hand we see social protests in defense of fundamental rights of democracy as in 1968 With these premises Architecture is now reinvestigating those ephemeral experiments that have endured half a century as new stone monuments capable of indicating new perspectives for both research and design Placing UFO group one of the authors of those still poorly known monuments at the core of the contemporary debate means investigating their formal and seductive aspects but also the ideological political and social values with which objects installations and happenings have been innervated transforming them into devices of an
