Bon's Year On Bonnie Grzesh Pedota, 2007-02-14 The only time I've ever thought I was really going to die was during my first panic attack I was on vacation in Paris and suddenly felt like I couldn't breathe As I hyperventilated my arms legs and torso went tingly I was rushed to the emergency room shaken but alive Panic disorder left me debilitated for two months after my first attack I struggled with shortness of breath fatigue and heart palpitations I was forced to defer going to teachers college for a year because I didn't feel physically able to go For a while I focused on all the things panic disorder was taking away from me Then I got wise I realized that my illness was called to become a better person I took panic disorder as an opportunity to grow The year off from school became my year on I majored in me I journaled went for therapy and asked myself important questions What do I enjoy Who am I Where do I want to be How can I be an active creator of my life rather than just falling into it Today panic disorder has taken a back seat A loving and supportive partner journal writing and cognitive behavioural therapy were the major players in my recovery Complementary medicine also played a supporting role But mostly it was me I decided I deserved to really live and that I was being called to do so They say that we are only dealt a hand that we can play If you are suffering with anxiety or panic be brave and ask yourself some important questions Am I really happy What do I love What have I always wanted to do Where can I get help How can I start healing today
