Taking Charge Your Life Patterns And Their Meanin:

Taking Charge Gudrun Burkhard,1997 While the modern world is rapidly making us into global citizens we experience increasing isolation as individuals in our own society There is a pressing need for us to develop new forms of relationship with family and society Through working consciously on our own life story we can build bridges to other people and develop a new understanding for the lives of others The ideas and methods presented here are the result of the author s many years of therapeutic work with groups and individuals dealing with personal and professional crises The life stories described are the authentic stories of participants in the courses and workshops The first part of the book outlines the principles of development underlying a person s life The second part discusses the methodology of the author s programs and presents a number of ways in which individuals can work on their own life stories

Love and Its Meaning in the World Rudolf Steiner,1998 Although Steiner did not often speak or write about love explicitly love is at the very heart of his whole body of work and the foundation of his hopes for humankind and the Earth Steiner teaches that without love nothing is possible with love however we can do everything Love is always love of the not yet To love is to create it is to selflessly enter the current of time that flows toward us from the future Reality true knowledge of reality is impossible without love Only through love can we truly know as we are know can we encounter the world and its beings in a living way Without love knowledge becomes manipulation domination control the world becomes a space of dead things But when we know through love we enter into a pattern of dynamic potentially redemptive relations and the world becomes a living world of beings working for the good This collection gathers all of Rudolf Steiner s main lectures and writings related to love From earthly love to the nature and function of spiritual love these pieces are essential reading for anyone concerned with the future of humanity and the Earth Love and Its Meaning in the World is essential reading for anyone who d like to gain a deeper understanding of our true mission as human beings and the purpose of evolution on Earth Chapters include The Division of the Sexes Lucifer and Christ The Mission of Reverence The Buddha s Teaching of Compassion and Love Faith Love and Hope Love without spiritual love

nothing spiritual can arise in evolution When we practice love cultivate love creative forces pour into the world For human beings love is the most important fruit of experience in the sensory world Once we really understand the nature of love or compassion we will find that love is the way spirit expresses its truth in the world of the senses We may even say that in love the spiritual world awakens in the physical The more truly a soul inhabits the spiritual worlds the more it experiences lovelessness and lack of compassion as a denial of spirit itself Rudolf Steiner

The Imaginative Life Tableau Rudolf Steiner, 2020-09-16 Many will be familiar with the notion that a person at the point of death sees their life flash before them Rudolf Steiner describes that when the spiritual bodies separate from the physical body the etheric body of the dying person is revealed giving a panoramic overview of their earthly life This etheric body contains everything we have experienced in our consciousness and kept in memory The etheric not only generates and sustains all life but encompasses the life forces out of which we shape our existence Although the revelation of the life tableau belongs to the early period after death it can also emerge as a result of meditation Rudolf Steiner speaks of this through the first level of spiritual experience known as imagination as a conscious self perception of the soul taking place in the world of images Here we are confronted with the harrowing knowledge of our doppelgänger but we also experience the cosmic forces of childhood that are present in all our life processes These same forces are described in psychology as the inner child In this highly original anthology of Steiner's work we are led to a therapeutic meditative approach that through working with the imaginative life tableau can strengthen and heal body soul and spirit Chapters include Experiencing the Inner Child as the Starting Point for a New Philosophy Experiencing Life before Birth Pain and Sadness When Reliving the Life Tableau Intensive Backward Thinking Feelings of Happiness When Experiencing the Life Tableau Re-experiencing the Inner Child Through the Forces of Childhood to the Higher Self and the Christ Experience

Why on Earth? Signe Ecklund
Schaefer, 2013-12-01 Life today poses many questions both in our personal lives and in our participation in nature and the broader culture We often focus on the outer needs for social political technological or environmental change However can we really meet the challenges around us without also attending to our inner life and to our own evolving biography as it reflects and informs the outer world This book starts from the premise that each of our lives expresses uniqueness of spiritual intention within the unfolding of universal rhythms and possibilities Can we wake up to the developmental opportunities offered to us through different life phases Are we able to step out of the narrowness of the dualistic nature nurture argument and experience that we are both more than our genetic composition and more than a product of the social and educational influences that have shaped us Can we come to appreciate the learning that our I has received through heredity ethnicity schooling and gender without losing a sense of our true individuality Waking up to our unique self as it grows through interaction with the world and other human beings helps us recognize the significance we all play in one another's biographies and in the unfolding of our larger human story Why on Earth invites us to explore our own meaningful life journey to bring conscious attention to how we go our path so that we may more freely perceive our possibilities and our responsibilities along the way of our personal and shared becoming
