## **Taking Hold My Journey Into Blindness:**

Taking Hold Sally Hobart Alexander, 1994      **Things No Longer There** Susan Krieger, 2005-05-05 *Things No Longer* There is a lovingly crafted collection of personal stories about the author's struggle toward enlightenment while losing her eyesight. It is also more broadly about invisible landscapes, places of the heart that linger long after they have disappeared from the world outside. In these ten brief tales and one novella-length intimate drama, Susan Krieger takes us on a series of adventures in vision, a journey both inward and to various parts of the country. We travel with her as she goes birdwatching before sunrise in the New Mexico desert, learns to walk with a white cane, revisits an old love, returns to a summer camp of her youth, and reflects on the nature of blindness and sight. Krieger's touching memoir explores the ways that outer landscapes may change and sight may be lost, but inner visions persist, giving meaning, jarring the senses with a very different picture than what appears before the eyes. This book will reward both the general reader and those interested in disability studies, feminist ethnography, and lesbian studies.

Using Literature to Help Troubled Teenagers Cope with Health Issues Cynthia Ann Bowman, 2000-03-30 Today, traditional illnesses and high-risk behaviors of adolescents have become interrelated through the multitude of physical, social, and emotional changes young people experience. Good literature, which gives adolescents the truth, has incredible power to heal and to renew. This reference resource provides a link for teachers, media specialists, parents, and other adults to those novels that can help adolescents struggling with health issues. Educators and therapists explore novels where common health issues are addressed in ways to captivate teens. Using fictional characters, these experts provide guidance on encouraging adolescents to cope while improving their reading and writing skills. With the advancement in medicine, traditional types of health issues such as birth defects, cancer, and sensory impairment have shifted to more behavior-related problems such as depression, alcoholism, and eating disorders. All of these issues and others are examined from both a literary and psychological perspective in thirteen chapters that explore health issues through fiction. Each chapter confronts a different health issue and is written by a literature specialist who has teamed up with a therapist. In each novel, these experts define the central character's struggle in coming to terms with an issue and growing in response to their difficulties. Annotated bibliographies of other works, both fiction and nonfiction, explore these same issues, give readers insight into helping teenagers with similar problems, and provide the tools with which to get teenagers reading and addressing these problems.

**Undaunted by Blindness, 2nd Edition** Clifford E. Olstrom, 2012-07-10 The purpose of this book is to provide concise biographical information about 400 notable blind persons. The people in this volume are but a small sample of many thousands of notable blind persons in history. Most of the information about their lives comes from secondary sources. Where feasible, some of the subject's own words were used.

*History of the Franks* Gregory Bishop of Tours, 1919-01-01 Among the narrative records of civilization inaccessible to those whose reading is confined to English texts few are of greater historical interest than the *History of the Franks* by Gregory of Tours The reason that it has remained so long untranslated into English is clear however to any one who has ever seriously considered the problem of which at least a partial solution is offered here In the first place although part of Gregory s narrative deals with events and men of great importance there are long sections dealing with happenings which in themselves are not worth our remembering Yet if one views the work as a source for the history of society rather than merely as a narrative of the acts of kings queens or saints it is often these relatively unimportant events which are most instructive and interesting for Gregory s picture of manners and customs is given by way of a story of what real people actually did and said It follows from this that if our main interest in the *History of the Franks* is in its picture of the life and customs of the times we must find that picture in what is often but a repetition of royal murders social disorder and turmoil lightened only by the equally persistent repetition of saintly virtue The editorial problem of how much or how little of such data to include is naturally one of considerable difficulty In the next place the historical value of the text varies according as Gregory dealt with past or present so that viewed as a narrative of fact the later portions have a much greater claim for preservation than the earlier If one were attempting to show what Gregory contributed to our knowledge one would be obliged to concentrate therefore upon these later sections and even there the value varies But viewing the *History of the Franks* as itself an exhibit of the age which it records we find ourselves often more interested in what Gregory does not know of the past than in what

he does know of the present In the very limitation of outlook in the choice of incident and arrangement of perspective the narrative of distant events reveals the state of culture of Merovingian Gaul in Gregory's day Hence for the history of thought and society the poorest part of Gregory's work ranks in importance with the best It might be urged that the one solution for these editorial problems would be to offer a translation of the whole of Gregory's work But this aside from the cost of publication seems too great a bulk of text for all but special students of the period who should in any case go to the original The student of European history in its larger aspects to whom one Childebert is like another demands an anthology for he finds the text so crowded with similar incidents that he is likely not only to lose the thread of the narrative but also to fail to appreciate the sections most significant for his own purpose In the circumstances a middle course has been taken The chapters omitted are summarized and in cases where they contain any items of special interest sections of them have been quoted in the summary This work of excision and condensation has been made with the ever present sense of the protest sure to come from the medievalist when he sees the work of desecration at last accomplished which Gregory himself so sadly feared and upon the authors of which he called down the wrath of Heaven throughout all eternity in the forceful words on page 247 of this translation It is only to be hoped that a new social value which anthropologists tell us is the basis of the sacred may justify the sacrilege With reference to the text itself the translator has attempted to follow the original as faithfully as possible It is difficult to render into another language Gregory's combination of literary qualities the chief of which are vigor crudity and a frequent affectation of literary style but this we believe Dr Brehaut has succeeded in accomplishing in a marked degree There are chapters which have the charm of Froissart swift in motion and tinged with romance but the most romantic figure of all is the bishop of Tours himself whose quaint but shrewd outlook penetrates the whole and this impression of subjectivity the present version seeks to convey

**The bondman; The blind mother; The last confession** Sir Hall Caine, 1900      **My Path Leads to Tibet** Sabriye Tenberken, 2003 Defying everyone's advice armed only with her rudimentary knowledge of Chinese and Tibetan Sabriye Tenberken set out to do something about the appalling condition of the Tibetan blind who she learned had been abandoned by society and left to die Traveling on horseback throughout the country she sought them out devised a Braille alphabet in Tibetan equipped her charges with canes for the first time and set up a school for the blind Her efforts were crowned with such success that hundreds of young blind Tibetans instilled with a newfound pride and an education have now become self supporting A tale that will leave no reader unmoved it demonstrates anew the power of the positive spirit to overcome the most daunting odds
