**International Handbook of the Religious, Moral and Spiritual Dimensions in Education** Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

**Religion in the Classroom** Jennifer Hauver James, Simone Schweber, Robert Kunzman, Keith C. Barton, Kimberly Logan, 2014-11-13 Dilemmas surrounding the role for religious beliefs and experiences permeate the school lives of teachers and teacher educators Inspired by the need for teachers and students to more fully understand such dilemmas this book examines the relationship between religion and teaching learning in a democratic society Written for pre service and in service teachers it will engage readers in thinking about how their own religious backgrounds affect their teaching how students' religious backgrounds influence their learning how common experiences of school and classroom life privilege some religions at the expense of others and how students can better understand diverse religious beliefs and interact with people from other backgrounds The focus is specifically on classroom issues related to religious understandings and experiences of teachers and students and the implications of those for developing democratic citizens Grounded in both research and personal experience each chapter provides thought provoking evidence related to the role of religion in schools and society and asks readers to consider the consequences of varied ways of responding to the dilemmas posed

*Religion in Multicultural Education* Farideh Salili, Rumjahn Hoosain, 2006-05-01 The National Association for Multicultural Education in Washington D C listed a number of issues that the school curriculum should address with reference to multicultural education including racism sexism classism linguicism ablism ageism heterosexism and religious intolerance It is noteworthy that of all these issues religion is about the only one that throughout history people are willing to die for although whether what is at issue is really religion or other things such as territory is another matter It is also interesting that all the others have isms in their names but religious issues are characterized by intolerance Perhaps we should try to understand this intolerance and look at what steps might help to alleviate it However while intolerance might seem a simple thing

understanding what is behind it and how it plays such a crucial role in religion requires what we refer to in the Introduction chapter as a multifaceted approach at multiple levels It is not enough just to try to dispel stereotypes of followers of other religions or to point out commonalities in world religions We should for example try to understand and appreciate how adherents of other religions try to answer questions regarding their adaptation to the contemporary environment It is through understanding how different religions coexist side by side at various levels that we truly come to learn about religion in multicultural education

**Encountering Faith in the Classroom** Miriam R. Diamond,2023-07-03 When faculty unexpectedly encounter students religious ideologies in the classroom they may respond with apprehension frustration dread or concern Instructors may view this exchange as a confrontation that threatens the very heart of empirical study and worry that this will lead to a dead end in the learning process The purpose of this book is to explore what happens and what can happen in the higher education and even secondary school classroom when course content meets or collides with students religious beliefs It also considers the impact on learning in an environment where students may feel threatened angry misunderstood or in which they feel their convictions are being discredited This is a resource that offers ways of conceptualizing engaging with and responding to student beliefs This book is divided into three sections student views on the role of religion in the classroom general guidelines for responding to or actively engaging religious beliefs in courses such as legal and diversity considerations and specific examples from a number of disciplines including the sciences social sciences humanities and professional education Professors from public private and religious institutions share their findings and insights The resounding lessons of this book are the importance of creating a learning space in which students can express their beliefs dissonance and emotions constructively without fear of retribution and of establishing ground rules of respectful discussion for this process to be valuable and productive This is an inspirational and practical guide for faculty navigating the controversial sensitive yet illuminating lessons that can be learned when religion takes a seat in the classroom

Waggoner,2011-03-01 Both sacred and secular worldviews have long held a place in U S higher education although non religious perspectives have been privileged in most institutions in the modern era Sacred and Secular Tensions in Higher Education illustrates the importance of cultivating multiple worldviews at public private and faith based colleges and universities in the interest of academic freedom and intellectual and moral dialogue Contributors to this edited collection argue that sacred perspectives are as integral to contemporary higher education in the United States as the more dominant

secular perspectives The debates and issues addressed in this book attempt to rebalance the dialogue and place an emphasis on pluralism rather than declare victory of one paradigm over the other Student affairs administrators higher education and religious studies faculty and campus ministers and chaplains will benefit from better understanding the interplay of these sometimes competing and sometimes complementary ideas on campus and the impact of the debate on the lives of faculty students and staff
