**Taking Responsibility for Learning and Teaching** Chris Turner, 2012-02-23 Although this book draws on theoretical principles and research it is a practical guide to leading the learning in schools Provided by publisher [Taking Responsibility for Climate Change](#) Sade Hormio, 2024-02-20 This book proposes that it is not only states and international bodies that have a responsibility to take action toward mitigating climate change Other collective agents such as corporations need to also come onboard Additionally the book argues that climate change is not solely a problem for collective agents but also for individuals as they are members of collectives and groups of several kinds Therefore framing climate change responsibility exclusively from either the collective or the individual perspective leaves out something crucial how we all are influenced by the collectives we belong to and how in turn collectives are influenced by individuals The focus of the book is on areas of climate change responsibility that are often left out of the picture or get too little attention in climate ethics such as carbon inequality within countries But why should any theoretical arguments about normative issues matter when we have a real life climate crisis on our hands S de Hormio argues that ethical arguments have an important role in setting climate policy they can highlight what values are at stake and help ground normative arguments in public deliberations **Taking Responsibility** Winston Davis, 2001 Responsibility has become the queen of modern virtues Winston Davis argues even if there is no consensus as to what responsibility means This illuminating collection of essays encompasses conceptions of responsibility around the globe as discussed by leading scholars in the fields of philosophy anthropology intellectual history religious studies classics and law Including Law as Response to Thou by Walter Brueggemann Jewish Philosophers after Heidegger Levinas and Jonas on Responsibility by Lawrence Vogel The American Founders Responsibility by Ralph Lerner and Religious Freedom and Civic Responsibility by Amy Gutmann Taking Responsibility provides a rich dialogue of diverse voices describing the many historical senses of responsibility as well as the vastly different approaches to being responsible that we experience in the modern world **Taking Responsibility for Ending Social Promotion**, 1999 [Taking Responsibility](#) Nathaniel Branden, 1997-04-21 The bestselling author of The Psychology of Self Esteem presents an illuminating guide to self realization through self reliance and a vision of a society transformed by a new ethical individualism **Taking Responsibility for the Life of Complex Human Ecosystems** Gary R. Gunderson, James R. Cochrane, 2025-08-05 The long awaited convergence of climate economic political intellectual faith and social failures gives many reasons for despair The authors of this volume have spent their lives around the trauma of race and poverty in South Africa and the United States working with Nobel prize winners and those in townships and tenements We have learned that hope is not delusional and accountability not naive But one must think clearly and deeply untethered from the inadequate simplicities and false choices We must be here now with eyes wide open for when systems break down as so many are today knowing that they also break open new space for creative action The authors lead the

global web of thinker doers through the Leading Causes of Life Initiative and national networks in Africa Europe and the United States They find coherence among profound thinking from fields never brought into alignment before drawn from by economists mycelial researchers anthropologists and health sciences working in the Arctic to South Africa and the tough neighbourhoods in between This includes a consideration of the human capacities that allow us to act in and transform the world we inhabit of the radical nature of joy in the face of despair of the judgement of Nemesis on hubris and privilege of the value of everything contra price as definitive of the idea of involution as distinguished from evolution of the concept of meshworks in our entanglement with others and finally of the theatre of the soul as the unity of the physical the psychological the political and the spiritual Sharply sensitive to the urgency of careful thought and wise action the authors help us see that life does find a way towards deep accountability for the life of complex human ecosystems They ask us to take responsibility for this as a key to human flourishing and well being

*The Duty to Obey the Law* William Atkins Edmundson,1999  
The question Why should I obey the law introduces a contemporary puzzle that is as old as philosophy itself The puzzle is especially troublesome if we think of cases in which breaking the law is not otherwise wrongful and in which the chances of getting caught are negligible Philosophers from Socrates to H L A Hart have struggled to give reasoned support to the idea that we do have a general moral duty to obey the law but more recently the greater number of learned voices has expressed doubt that there is any such duty at least as traditionally conceived The thought that there is no such duty poses a challenge to our ordinary understanding of political authority and its legitimacy In what sense can political officials have a right to rule us if there is no duty to obey the laws they lay down Some thinkers concluding that a general duty to obey the law cannot be defended have gone so far as to embrace philosophical anarchism the view that the state is necessarily illegitimate Others argue that the duty to obey the law can be grounded on the idea of consent or on fairness or on other ideas such as community

*Speech and Morality* Terence Cuneo,2014-08-07 Terence Cuneo develops a novel line of argument for moral realism The argument he defends hinges on the normative theory of speech according to which speech acts are generated by an agent's altering her normative position with regard to her audience gaining rights responsibilities and obligations of certain kinds Some of these rights responsibilities and obligations Cuneo suggests are moral And these moral features are best understood along realist lines in part because they explain how it is that we can speak If this is right a necessary condition of being able to speak is that there are moral rights responsibilities and obligations of a broadly realist sort
