Disruptive Journalism Technologies Will Mari,2019-02-07 A Short History of Disruptive Journalism Technologies provides a swift analysis of the computerization of the newsroom from the mid 1960s through to the early 1990s It focuses on how word processing and a number of related affordances including mobile reporting tools impacted the daily work routines of American news workers The narrative opens with the development of mainframes and their attendant use as databases in large daily newspapers It moves on to the minicomputer era and explores initial news worker experiences with computers for editing and publication Following this the book examines the microprocessor era and the rise of smart terminals microcomputers and off the shelf hardware software along with the increasing use of computers in smaller news organizations Mari then turns to the use of pre internet networks wire services and bulletin boards deployed for user interaction He looks at the integration of decentralized computer networks in newsrooms with a mix of content management systems and PCs and the increasing use of pagers and cellphones for news gathering including the shift from portable to mobile conceptualizations for these technologies A Short History of Disruptive Journalism Technologies is an illuminating survey for students and instructors of journalism studies It represents an important acknowledgement of the impact of pre internet technological disruptions which led to the even more disruptive internet and related computing technologies in the latter 1990s and through the present **Journalism Education Between Market Dependence and Social**

Responsibility Hugo Bigi,2012 **The A to Z of Journalism** Ross Eaman,2009-10-12 Journalism is the discipline of gathering writing and reporting news and it includes the process of editing and presenting news articles Journalism applies to various media including but not limited to newspapers magazines radio television and the internet The word journalist started to become common in the early 18th century to designate a new kind of writer about a century before journalism made its appearance to describe what those writers produced Though varying in form from one age and society to another it gradually distinguished itself from other forms of writing through its focus on the present its eye witness perspective and its reliance on everyday language The A to Z of Journalism relates how journalism has evolved over the centuries This is done through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on the different styles of journalism the different types of media and important writers and editors The Antebellum Press David B. Sachsman,Gregory A. Borchard,2019-06-10 The Antebellum Press Setting the Stage for Civil War reveals the critical role

of journalism in the years leading up to America's deadliest conflict by exploring the events that foreshadowed and in some ways contributed directly to the outbreak of war. This collection of scholarly essays traces how the national press influenced and shaped America's path towards warfare. Major challenges faced by American newspapers prior to secession and war are explored including the economic development of the press technology and its influence on the press major editors and reporters North and South and the role of partisanship and the central debate over slavery in the future of an expanding nation. A clear narrative of institutional political and cultural tensions between 1820 and 1861 is presented through the contributors' use of primary sources. In this way the reader is offered contemporary perspectives that provide unique insights into which local or national issues were pivotal to the writers whose words informed and influenced the people of the time. As a scholarly work written by educators, this volume is an essential text for both upper level undergraduates and postgraduates who study the American Civil War, journalism, print and media culture, and mass communication history.

The Dark Side of News Fixing Syed Irfan Ashraf, 2021-11-02. This book provides a local journalist's perspective on a four decade long regional contribution to global news production. It shows how the fixers' risky news pursuits made possible for global media to access distant regions and dangerous caves on Pakistan and Afghanistan borders causing unprecedented deaths of the local reporters in the context of the U.S. led war on terror. The book analyzes the fixer as a role in its relationship with militarization. It is not a coincidence that fixers become valuable to commercial media only during the height of violence or crises. Emerging under conditions of scarcity or war, the value of this role in turn is intrinsically tied to the fear of extinction. It is this vulnerability or perceived expendability imposed by the need to find work that binds fixers in a symbiotic relationship with global market and global war. This book then serves as a vantage point from which one can clearly see the connection between the regional wars and commercial media as well as local journalists' transformation into daily wage earners in a global media shift toward neoliberalism.

Before Journalism Schools Randall S. Sumpter, 2018-06-29. Randall Sumpter questions the dominant notion that reporters entering the field in the late nineteenth century relied on an informal apprenticeship system to learn the rules of journalism. Drawing from the experiences of more than fifty reporters, he argues that cub reporters could and did access multiple sources of instruction including autobiographies and memoirs of journalists, fiction, guidebooks, and trade magazines. Arguments for professional journalism did not resonate with the workaday journalists examined here. These news workers were more concerned with following a personal rather than a professional code of ethics and implemented their own work rules. Some of those rules governed delinquent behavior. While scholars have traced some of the connections between beginning journalists and learning opportunities, Sumpter shows that much more can be discovered with implications for understanding the development of journalistic professionalism and present day instances of journalistic behavior.

The American Newsroom Will Mari, 2021-07-09. The story of the American newsroom is that of modern American journalism. In this holistic history, Will Mari tells that story from the 1920s through the 1960s, a time of great

change and controversy in the field one in which journalism was produced in news factories by news workers with dozens of different roles and not just once a day but hourly using the latest technology and setting the stage for the emergence later in the century of the information economy During this time the newsroom was more than a physical place it symbolically represented all that was good and bad in journalism from the shift from blue to white collar work to the flexing of journalism's power as a watchdog on government and an advocate for social reform Told from an empathetic omnivorous ground up point of view *The American Newsroom A History 1920 1960* uses memoirs trade journals textbooks and archival material to show how the newsroom expanded our ideas of what journalism could and should be *Journalism and the American Experience* Bruce J. Evensen, 2018-02-12 *Journalism and the American Experience* offers a comprehensive examination of the critical role journalism has played in the struggle over America's democratic institutions and culture Journalism is central to the story of the nation's founding and has continued to influence and shape debates over public policy American exceptionalism and the meaning and significance of the United States in world history Placed at the intersection of American Studies and Communications scholarship this book provides an essential introduction to journalism's curious and conflicted co-existence with the American democratic experiment **Voices in the Wilderness** Michael Meadows, 2000-12-30 This book examines race relations in Australia through various media representations over the past 200 years The early colonial press perpetuated the image of aboriginal people as framed by early explorers and stereotypes and assumptions still prevail Print and television news accounts of several key events in recent Australian history are compared and reveal how indigenous sources are excluded from stories about their affairs Journalists wield extraordinary power in shaping the images of cultures and people so indigenous people like those in North America have turned away from mainstream media and have acquired their own means of cultural production through radio television and multimedia This study concludes with suggestions for addressing media practices to reconcile indigenous and non-indigenous people This study will appeal to students and scholars studying mass media particularly journalism and public relations Australian history and sociology

Brown and Black Communication Diana Rios, Ali Mohamed, 2003-07-30 Though Latinos and African Americans have lived together in large cities as neighbors there is much that is still misunderstood between them Those who live in non-diverse locales have only news and entertainment representations on which to base their information about the two cultures This new collection of essays brings together the latest interdisciplinary works by scholars examining conflicts and convergences among Latinos and African Americans in mass-mediated and cross-cultural contexts Contributions in the form of both empirical and critical ethnographic research present compelling works in cross-cultural relations news entertainment news media education and community relations *IBrown and Black Communication* challenges those who do not think that significant projects and key research have been conducted on the two largest ethnic communities in the United States Of certain appeal to both scholars and those with more applied needs in media education and public policy this challenging

collection offers a range of perspectives on two widely diverse bodies of American people Covering McCarthyism
Lawrence N. Strout, 1999-09-30 Strout examines how the Christian Science Monitor a highly influential newspaper of the era covered Joseph R McCarthy and McCarthyism from the Senator's Lincoln Day speech in February 1950 through his censure in December 1954 Through his in depth examination of the Monitor's interoffice communications Strout examines how the Monitor's coverage compared with other elite and popular press newspapers and how the pressures associated with McCarthyism affected individuals at the Monitor An extensive review of the Monitor's editorials and news articles suggests that it was remarkably thorough and fair in its reporting while still being outspoken but responsible in its criticism While many newspapers attacked McCarthy personally the Monitor concentrated on the actions of the junior senator and the negative effects they were having at home and abroad As Strout sees it the Monitor served as a voice of moderation while simultaneously being a persistent critic of McCarthy's tactics
