Oldmixon, 2017-04-12 Clergy are pillars of local religious communities and Roman Catholic priests are perhaps the quintessential examples of pastors functioning as political elites The political science literature demonstrates that priests

indeed clergy more generally are well positioned to influence the faithful even if this influence is somewhat inconsistent At their core priests are opinion leaders and representatives of their church to both the faithful and their local communities But exactly how Catholic priests determine the political acts and attitudes associated with their elite role remains a puzzle We suggest it is the product of an interactive institutional social and psychological milieu the complexity of which has not been fully assessed in the extant literature Though some might prefer to think of priests as profiles in courage operating above the political fray the institutional and personal realities of priest life often forces them to deal with the political realm In doing so priests are variably responsive to different principals or reference groups that represent specific dimensions of their professional context Drawing on a series of randomized experiments on samples of Roman Catholic priests in the US and Ireland we find that priests cognitively draw on varying professional and personal cues in responding to their employer s institutional preferences Furthermore how priests represent their church s political preferences to parishioners appears to be a matter of individual level discretion

Preacher as Risk Taker Richard Hart, 2003 Many individuals take risks in life such as mountain climbers magicians farmers and gamblers But do we ever include preachers in that category Preachers have opportunities to be some of the greatest risk takers In Preacher as Risk Taker Richard Hart O F M Cap challenges preachers to be on the cutting edge by taking risks resulting in better preaching How many preachers are willing to submit their homilies to an editor or have their homilies taped Are poetic preachers ready to preach in a changing Church How often do preachers discuss social sin in the environment ageing the reign of God or Paul s epistles Do today s preachers realize how important it is to preach through healing or Jesus as a wisdom figure Finally do preachers know the true difference between a eulogy and a homily Hart offers insight to each of these questions for preachers interested in improving their homilies Preachers might not be asked to scale a mountain or act as a magician But preachers are asked to take similar risks when preaching on challenging topics In Preacher as Risk Taker Father Hart provides answers for those interested in becoming spirited preachers

Rendering Unto Caesar Anthony Gill, 1998-02-03 For most of its history the Latin American Catholic Church has been considered a pillar of conservatism This image changed dramatically in the 1960s and

1970s when bishops in countries such as Brazil Chile and El Salvador publicly denounced repressive dictatorial regimes in their respective countries Observers rushed to understand both the causes and consequences of this phenomenon while unfortunately ignoring the persistence of Catholic support for authoritarianism in Argentina Honduras and Uruguay In Rendering unto Caesar Anthony Gill offers an answer to the question of why Catholic leaders in some countries came to oppose dictatorial rule but equally important why many did not *Human Rights Abuses in Algeria* Andrew Whitley,1994
