Teixeira, 2009-11-01 As America rushes headlong into a dramatic

campaign season it is clear that these consequential contests and the ones that follow will be hugely influenced by recent changes in the nation's makeup Red Blue and Purple America provides a clear and nuanced understanding of the geographic and demographic changes that are transforming the United States and how that transformation is reshaping politics for the 2008 elections and beyond The invaluable result is a detailed picture of current trends as well as a clear-eyed assessment of how they will shape American politics and policy during the next two decades An elite group of demographers geographers and political scientists analyze rapidly changing patterns of immigration settlement demography family structure and religion Each analysis describes one major trend and assesses its likely impact on politics for the 2008 elections but for the long term as well The authors then lay out the most likely implications for public policy In doing so they show how these trends have shaped the Red and Blue divisions we are familiar with today and how the developments might break apart those blocs in new and surprising ways      **Recognizing Race and Ethnicity** Kathleen J. Fitzgerald, 2014-02-18 Despite radical changes

over the last century race remains a central organizing principle in U S society a key arena of inequality and the subject of ongoing conflict and debate In a refreshing new introduction to the sociology of race Recognizing Race and Ethnicity

encourages students to think differently by challenging the notion that we are or should even aspire to be color blind In this text Kathleen Fitzgerald considers how the continuing significance of race manifests in both significant and obscure ways by looking across all racial ethnic groups within the socio historical context of institutions and arenas rather than discussing each group by group Incorporating recent research and contemporary theoretical perspectives she guides students to examine racial ideologies and identities as well as structural racism at the same time she covers topics like popular culture sports and interracial relationships that will keep students engaged Recognizing Race and Ethnicity provides unparalleled coverage of white privilege while remaining careful to not treat white as the norm against which all other groups are defined Recognizing Race and Ethnicity makes it clear that in a time when race and racism are constantly evolving in response to varied social contexts societal demands and political climates we all must learn to recognize race if we are to get beyond it
