Missional (Allelon Missional Series) Alan J. Roxburgh, 2011-03-01 The burgeoning missional church movement is a sign that believers are increasingly feeling the call to impact their communities which is a good thing But says Alan J Roxburgh these conversations still prioritize church success over mission how can being missional grow my church But to focus on such questions misses the point In *Missional* Roxburgh calls Christians to reenter their neighborhoods and communities to discover what the Spirit is doing there to start with God s mission He then encourages readers to shape their local churches around that mission With inspiring true stories and a solid

biblical base Missional is a book that will change lives and communities as its message is lived out *Silent Moments in Education* Colette Granger, 2011-12-10 Colette A Granger's highly original book considers moments in several areas of education in which silence may serve as both a response to difficulty and a means of working through it. The author, a teacher educator, presents narratives and other textual artefacts from her own experiences of learning and instruction. She analyses them from multiple perspectives to reveal how the qualities of education's silences can make them at once difficult to observe and challenging to think about. *Silent Moments in Education* combines autoethnography with psychoanalytic theory and critical discourse analysis in a unique consideration of the relations teachers and learners forge with knowledge with ideas and with one another. This provocative and thoughtful work invites scholars and educators to consider the multiple silences of participants in education and to respond to them with generosity and compassion.
