New Perspectives on Turkey-EU Relations Chris Rumford, 2014-10-29 This book makes the case for looking afresh at Turkey EU relations in order to appreciate the richness and complexity of a relationship which is now more than 50 years old and is still not close to reaching fulfilment The contributors challenge conventional attempts to understand Turkey EU relations revealing that EU integration studies has been rather poor at understanding the global context within which Turkey EU developments take place More surprising perhaps EU integration studies has also struggled to give sufficient weight to the potential of Turkey s domestic politics to shape EU enlargement The volume attempts to correct these imbalances by offering both a global context and new perspectives on the drivers of domestic politics It represents a shift from a narrow EU integration enlargement agenda Turkey s position vis a vis the EU cannot be adequately captured by simplistic notions of conditionality harmonization and an uncritical interpretation of Europeanization A more rounded view of Turkey EU relations is advanced based upon a broader context of European and global transformations The contributions collected here offer an interpretation of Turkey EU relations from a novel perspective utilize a new framework of theory and draw upon insights and perspectives from disciplines underrepresented in mainstream study of Turkey EU relations This book was published as a special issue of the Journal of Contemporary European Studies **Southern Living 2016 Annual Recipes** Editors of

Coons, 2023-03-15 This work makes a richly humanitarian case for parental school choice seeking to advance social justice and respect the dignity of parents especially those on the margins For decades arguments in favor of school choice have largely been advanced on the basis of utility or outcome rather than social justice and human dignity The Case for Parental Choice God Family and Educational Liberty offers a compelling and humanitarian alternative This volume contains an edited collection of essays by John E Coons a visionary legal scholar and ardent supporter of what is perhaps best described as a social justice case for parental school choice Few have written more prodigiously or prophetically about the need to give parents particularly poor parents power over their children's schooling Coons has been an advocate of school choice for over sixty years and indeed remains one of the most articulate proponents of a case for school choice that promotes both low income parents and civic engagement as opposed to mere efficiency or achievement His is a distinctively Catholic voice that brings powerful normative arguments to debates that far too often get bogged down in disputes about cost savings and test scores The essays collected herein treat a wide variety of topics including the relationship between school choice and individual autonomy the implications of American educational policy for social justice equality and community the impact of public schooling on low income families and the religious implications of school choice Together these pieces make for a wide ranging and morally compelling case for parental choice in children's schooling The Animated Film Collector's Guide David Kilmer, 1997 In the age of video nearly every film ever made is available on video somewhere The only problem is finding it This guide lists both title and producer nearly 3000 animated films the sources of their video copies with the sources telephone fax numbers postal address and e mail Included are many hard to find films This is the only source of information you will need to track it down An added bonus is a listing of more than 200 films that have won major prizes at animation festivals and or placed on animation polls Yale University 2012 Rachel Glodo, 2011-03-15 **The Rhetoric of**

Guardianship and Democracy in Iran and Turkey Karabekir Akkoyunlu, 2024-09-30 A comparative analysis of the political consolidation and popular contestation of regime guardianship in Turkey and the Islamic Republic of Iran Moves beyond the Secular vs Islamic Sunni vs Shia dichotomies to highlight Turkey and Iran s understudied hybrid institutional architecture Compares and contrasts the foundations consolidation internal frictions and popular contestation of regime guardianship in two ideologically inimical republics Provides insights for the democratisation and hybrid regime scholarship into how tutelary institutions shape and constrain electoral institutions and processes Analyses the key actors dynamics and turning points of the power struggles that shaped and transformed Iran and Turkey in the 21st century Critically assesses the causes and consequences of the fragility of democratic governance and the persistence of patriarchal power structures in both countries This book offers the first comparative study of the foundations consolidation and contestation of regime guardianship in the Islamic Republic of Iran and the Republic of Turkey For decades the military in Turkey and the clergy in Iran acted as the guardians of Atatürk and Khomeini s ideological legacies At the turn of the 21st century rising popular actors in both countries started challenging the tutelary control of the state and society While in Turkey the clash between the Kemalist guardians and their Islamist led rivals resulted in a victory for the latter although not for democracy in Iran traditionalist guardians were able to thwart popular challenges to their authority at the expense of the regime s democratic legitimacy How was guardianship established consolidated and contested in these republics with seemingly inimical founding ideologies Why did it unravel in Turkey but survive in the Islamic Republic in the early 2010s And what do these power struggles and their outcomes tell us about political contestation in tutelary hybrid regimes

Visual Evidence and the Gaza Flotilla Raid Maayan Amir, 2022-01-13 This book engages with pivotal examples of extraterritoriality from Antiquity and into the twenty first century in order to broaden the original judicial and geographical definition and thereby include physical and digitized information and visual data in particular By focusing on a critical incident of recent Middle Eastern history namely the Gaza Freedom Flotilla of 2010 which sailed against Israel s enduring blockade it shows how the device of extraterritoriality shapes not only the political situation in Gaza the legal status of the maritime environment in which the flotilla incident took place and the judicial actions taken in response but also reveals how the concept of extraterritoriality is key to explaining the State s subsequent efforts to confiscate and monopolize all visual evidence of its alleged violations of international statutes Through the lens of the missing visual evidence characterizing the Mavi Marmara incident after effects it explores how the legal system s ability to evade transparency seems to be a built in condition for eluding criminal accountability at the international level with the emphasis on extraterritoriality s fundamental role in fashioning our current legal and political orders
