The Rabbinic Parables and Jesus the Parable Teller David Flusser, 2024-04-09 First published in German as *Die rabbinischen Gleichnisse und der Gleichniserzähler Jesus* in 1981 and now translated into English for the first time this seminal work by Professor David Flusser remains an important and unparalleled contribution on Jesus as a storyteller in the Jewish rabbinic tradition Using a literary approach to study extant rabbinic parables he argues that Jesus parables belong to a genre that exists only in rabbinic literature and the New Testament In order to analyze the theology behind Jesus parables we need to understand them as a first century literary art form In a summary of the book Flusser writes I am firmly

convinced with fellow researchers that it is possible to get reasonably close to the original wording of Jesus teaching But this is only the case when the otherwise usual method of literary criticism is applied to the text of the Synoptic Gospels and when moreover one is willing and able to be guided by knowledge of Judaism I certainly admit that the words of Jesus including his parables were edited by Greek redactors and subsequently by the evangelists Nevertheless I believe it is often possible to separate the shell from the nut by applying a better synoptic theory As I have argued several times the parables of Jesus belong to the genre of the rabbinic parables Therefore valid statements about Jesus parables whether these regard their essence or their literary quality can only be made when one has first dealt with the essence and literary form of the rabbinic parables

Judaism and Scripture Jacob Neusner,2003-09-08 This groundbreaking work continues Jacob Neusner s multi volume examination of the main texts of Judaism in its formative years The first two parts of the project Judaism The Evidence of the Yerushalmi examined the Mishnah and the Talmud of the Land of Israel and placed them in the social intellectual and religious contexts of their time In Judaism and Scripture Neusner moves from the study of ancient Judaism in society at large to an analysis of Rabbinic Judaism in relation to Scripture itself Neusner accomplishes this both through close analysis and through the first English translation of the critical text of the Leviticus Rabbah Tracing the relationship between the actual Book of Leviticus and its rabbinic commentary Neusner asks how the rabbis who stand behind the text make use of Leviticus and how through their comments on it they make intelligible and comprehensible statements of their own In answering these two questions Neusner shows through a prime example exactly how Scripture enters Judaism and how rabbis of the formative age of Judaism chose and taught the lessons they deemed
