Reading by Right Joy Court, 2017-06-08 Literacy has now been recognized as a human right for over 50 years in several international declarations and initiatives. Every child has a right to read and we have a social responsibility as parents, teachers, librarians, publishers, booksellers, campaigners and policy makers to ensure that they are able to exercise that right. Reading by Right: Successful strategies to ensure every child can read to succeed provides a collection of chapters from international experts covering aspects of overcoming reading difficulties or reading reluctance in children and young people. The book reveals strategies that are proving effective in overcoming barriers to reading from birth to teens, looking at practices and projects from around the globe and revealing some common principles and drivers that have generated success. Content covered includes an examination of the current state of reading in the UK and internationally and what the latest research tells us about children who are failing to read, how youngsters become reluctant readers and how to improve the situation for everyone. Examples of successful projects from the Republic of Korea and Finland, countries that consistently perform well in reading tests and international league tables, analysis of diversity in publishing and children's books, drawing on expertise from authors and publishers. This book will be valuable for readers from all those professions that engage with young people and families and with the development of literacy, including librarians, teachers, service managers, consultants and other professional practitioners and also to concerned parents. *Pirates and Other Adventures* Jo Boulton, Judith Ackroyd, 2012-11-12 This series responds to the increasing awareness of role play as an exciting and effective approach to

in the story of the exodus The author of John's Gospel in turn recounted the life of Jesus in light of the story of creation Pointing out that much of modern literary criticism has roots in biblical hermeneutics Carmichael turns his attention to the richness and complexity of the ancient world's own modes of interpretation By doing so he is able to uncover the heretofore unrecognized influence of the exodus story on the creation story and of the creation story on John's Gospel Carmichael first shows how the author of the seven day scheme of creation in Genesis produced it in response to his reading of the exodus story which was centuries old in his time He then shows the extent to which the author of John's Gospel was influenced by first century cosmological speculation Philo's in particular In the first five chapters of his gospel the author elaborated the details of the creation story to present in allegorical fashion incidents from the life of Jesus
