These stories tell of life and lives lived in the forgotten days of the mountains and foothills of the great Adirondacks The following stories here within are not true Some are based on the truth of a myth as I like to say Leather Jack follows somewhat of a true person Of Old Hank when my sister was young our mother would tell her stories of Old Hank Old Hank was created by our mother made up he was an old man that for some reason had gone off to live by himself in a cave 10 years younger than my sister by the time I came along Old Hank was kind of a family legend in story The stories weren't really told to me as fully as they were to my sister I being told bits and pieces What I was never told was why Old Hank went off to live in a cave Maybe there wasn't even a real beginning to these stories just a fanciful Once upon a time there was an old man who lived in a cave Half a century later I have decided to give Old Hank a beginning [Blacks in the Adirondacks](#) Sally E. Svenson,2017-11-24 Blacks in the Adirondacks A History tells the story of the many African Americans who settled in or passed through this rural mountainous region of northeastern New York State In the area for a variety of reasons some were lifetime residents while others were there for a few years or months as summer employees tuberculosis patients or in connection with full or part time occupations in railroading the performing arts and baseball From blacks who settled on land gifted to them by Gerrit Smith a prosperous landowner and fervent abolitionist to those who worked as waiters in resort hotels Svenson chronicles their rich and varied experiences with an emphasis on the 100 years between 1850 and 1950 Many experienced racism and isolation in their separation from larger black populations some found a sense of community in the scattered black settlements of the region In this first definitive history Svenson gives voice to the many blacks who spent time in the Adirondacks and sheds light on their challenges and successes in this remote region **Campfire Stories: The**

Body, Boots, and Britches Harold W. Thompson, 1979-11-01 A superb blend of good story telling and sound scholarship this book provides a fascinating record of what country New Yorkers have had to say and sing about themselves as they made their way through three centuries You'll find stories and songs about pioneers Injun fighters cannallers outlaws uncanny critters lumberjacks farmers lovers murderers and tricksters You'll even be reminded that piracy and whaling are part of New York's many faceted tradition One chapter examines the origins of New York's strange place names Another is devoted to an engrossing account of New York's proverbs and folk wisdom

The Untold Story of Champ Robert E. Bartholomew, 2012-12-04 The lake surface was glass My girlfriend and I were fishing from our anchored rowboat in about

fifteen feet of water facing the New York shore Ron what s that I turned About thirty feet away I saw three dark humps protruding about two feet above the surface The humps were perhaps two or three feet apart They didn t move We didn t either We watched in disbelief for about ten seconds The humps slowly sank into the water There was no wake no telltale sign of movement Unexplained Eerie Unsettling from the Foreword by Ronald S Kermani Scotland may have Nessie the Loch Ness Monster but we have Champ the legendary serpent like monster of Lake Champlain The first recorded sighting of Champ in 1609 has been attributed to the lake s namesake French explorer and cartographer Samuel de Champlain This is pure myth but there have been hundreds of sightings since then Robert E Bartholomew embarks on his own search both of the lake firsthand and through period sources and archives many never before published Although he finds the trail obscured by sloppy journalism local leaders motivated by tourism income and bickering monster hunters he weighs the evidence to craft a rich colorful history of Champ From the nineteenth century when Champ was a household name to 1977 when he appeared in Sandra Mansi s controversial photograph Bartholomew covers it all Real or imaginary Champ and his story will fascinate believers and skeptics alike

Mapping the Invisible Landscape Kent C. Ryden, 1993 Any landscape has an unseen component a subjective component of experience memory and narrative which people familiar with the place understand to be an integral part of its geography but which outsiders may not suspect the existence of Unless they listen and read carefully This invisible landscape is made visible through stories and these stories are the focus of this engrossing book Traveling across the invisible landscape in which we imaginatively dwell Kent Ryden himself a most careful listener and reader Asks the following questions What categories of meaning do we read into our surroundings What forms of expression serve as the most reliable maps to understanding those meanings Our sense of any place he argues consists of a deeply ingrained experiential knowledge of its physical makeup an awareness of its communal and personal history a sense of our identity as being inextricably bound up with its events and ways of life and an emotional reaction positive or negative to its meanings and memories Ryden demonstrates that both folk and literary narratives about place bear a striking thematic and stylistic resemblance Accordingly Mapping the Invisible Landscape examines both kinds of narratives For his oral materials Ryden provides an in depth analysis of narratives collected in the Coeur d Alene mining district in the Idaho panhandle for his consideration of written works he explores the OC essay of place OC the personal essay which takes as its subject a particular place and a writer s relationship to that place Drawing on methods and materials from geography folklore and literature Mapping the Invisible Landscape offers a broadly interdisciplinary analysis of the way we situate ourselves imaginatively in the landscape the way we inscribe its surface with stories Written in an extremely engaging style this book will lead its readers to an awareness of the vital role that a sense of place plays in the formation of local cultures to an understanding of the many layered ways in which place interacts with individual lives and to renewed appreciation of the places in their own lives and landscapes

relationship over time Otis argues that the landscape was much more than a mere hunting ground for Native residents rather it a location of exchange a space of interaction where the land was woven into the fabric of their lives as an essential source of refuge and survival Drawing upon archival research material culture and oral histories Otis examines the nature of Indigenous populations living in predominantly Euroamerican communities to identify the ways in which some maintained their distinct identity while also making selective adaptations exemplifying the concept of survivance In doing so Rural Indigenousness develops a new conversation in the field of Native American studies that expands our understanding of urban and rural indigeneity
