The Black Hole Bar Dave Weaver,2014-06-22 Simon a traveller with time to kill before continuing his journey enters an inn on the outskirts of London Inside he meets a motley crew competing to tell tales for their own amusement So starts Dave Weaver s new novel The Black Hole Bar which has already been compared to Chaucer s Canterbury Tales and Boccaccio s Decameron But these raconteurs are not pilgrims nor are they hiding from a plague Simon is on his way by rocket to Titan rather than on horseback to Canterbury the tavern is the Black Hole Bar although being high up on Level Five of Docklands Spaceport it isn t too far from Southwark the tales are not told by a knight squire nun merchant clerk parson franklin or manciple but by a programmer advertising copywriter dancer financier customs officer marine biologist sports star and port worker Simon works in the public relations department of Me Grade Incorporated an international Methane gas conglomerate He s an industrial journalist on his way to yet another off world assignment this

time a three month trip to Saturn's moon to write a promotional piece about the harvesting of the Methane lakes on that forbidding world But Simon is a troubled man He's sure his wife is having an affair during his prolonged absences he's bored with his job and unsure where his life is going Simon has stumbled into what was supposed to be a closed session for the Black Hole Bar Writers Group who meet once a month to take part in a short story competition the winner's trophy is a small chunk of meteorite simply termed The Rock As an interesting way to spend his last Earth night and forget his troubles for a few hours this is perfect Simon writes stories too and he's been looking for a set up like this for some time Begrudgingly they let him participate The stories begin and Simon starts taking the competition far more seriously than he intended Each of the bar's denizens tells two stories stories that are variously strange amusing and occasionally downright scary The writers all have their own histories to impart lives crossed by tragedy and drama come tumbling out one by one into the cramped little room and as they do so we the invisible uninvited presence at Simon's side learn more about the background of this future world its wars its governments its strange new customs and social groupings A world which is at the same time recognisable as our possible future but also chilling in its recent past Not far from the spaceport the old capital of London lies deserted abandoned first but not least in the wave of dirty bomb outrages committed by the growing fundamentalist armies who have sworn to topple the Corporate States of the Euro zone and New America As the night progresses personalities clash secrets are disclosed and friendships made And Simon finds himself slowly but surely falling in love But he still has a date with Titan to keep It's getting late very late and he should leave but the competition has yet to conclude Simon's heart tells him to stay but his head says go now before it's too late and you lose everything How will his own tale end      **Discovering H.P.**

**Dragon Rigger** Jeffrey A. Carver, 2015-08-06 A realm at war The star dragons struggle under the oppression of an unseen foe a creature of terrible power who seeks to shape all of space time into a web of subjugation and death The Dream Mountain source of knowledge and life to the dragons is held by the enemy and yet hope burns in the dragons hearts According to ancient prophecy One will come from outside to challenge the darkness Star pilot Jael LeBrae may be that

savior Once before she aided the dragons in their struggle and now she must return to face at last the terrible wrath of Tar  
skel But if the prophecy holds true the price of victory over the darkness will be Jael s own life Captivating sequel to Dragons  
in the Stars Dragon Rigger is science fiction with mythic dimension from the Nebula nominated author of Eternity s End and  
The Chaos Chronicles REVIEWS Dragon Rigger is a most excellent adventure that would make a grand movie if it were not  
that the special effects budget would surely be quite brutal even in this age of computer animation If there is a motto for this  
novel it is solidarnosc solidarity the power to be gained by sticking with one s friends even by sacrificing for the good of  
others there is immense verve energy momentum and power the reader stays with Carver all the way Thomas A Easton  
Analog A refreshingly unique setting and excellently realized characters Publishers Weekly
