Tales Of The Midnight Sun:

Tales of the Midnight Sun John P. Orban, 2001-05 We live in a complex rational world and also in a world of unexplained paranormal realities The transit of our selves our souls and our minds through the passage of time is a metaphysical process that remains as it has been throughout history an ongoing mystery We are truly suspended in a mystical process that men over the centuries have tried to make into some kind of sense and yield a solution or explanation Questions such as who we are where we came from where we ultimately go as well as what is the meaning of what we experience in life are the sum and substance of the essentials questions that we as mortals ultimately face In these tales an approach that probes our instinct to imagine resolution to esoteric questions is placed before the reader You will find your ability to expand your consciousness tested and hopefully you will learn from these provocative protagonists how their answers were found Some believe that a New Age is before mankind if we can avert our tragically destructive instincts and mechanisms Perhaps in that New Age we all have to dream of and fight for positive changes and hope that the reality of life on Earth will blossom positively This collection of novellas describes a utopian view of our experience as a positive metaphysical race and attempts to push the envelope of reality
