William Dean Howells 1837 1920 was an American realist author historian literary critic and playwright *The Reporter's Tale* Tom Davies, 2009-10 The Reporter's Tale is an adventure story about Tom Davies a young Welsh writer who travels the world looking for the truth and in a few days of blistering revelation in Malaya finds it in a series of visions Thereafter he takes his new insights on a journey through the media becoming a reporter for top Sunday newspapers and later an award winning author of many books and realising he has a fresh understanding of the causes of the violence which is so blighting the modern world His odyssey of discovery begins in Northern Ireland at the height of the Troubles where he finds that the media with its persistent pursuit of violence is the cause of much of the disorder there The global media which specialises in reporting the worst of everything from everywhere has become the mother and father of modern terrorism he says giving the IRA disproportionate power and importance merely because they offer violence Television in particular is the catalyst for the growing disorder in our streets becoming the very leader of street riot while also giving motive and reward to suicide bombers The many revolutions of the Arab Spring are fully explained by his visions he shows Here the world's media first began feeding on the self immolation of a Tunisian trader before spawning revolution after revolution in neighbouring countries They all wanted freedom and democracy we were told but all that seemed to be happening was that they were deranged by watching too much television news as each service particularly Al Jazeera spooled out violent imagery on an almost twenty four hour loop mostly from footage downloaded from their viewers mobile phones All outlets of the media have come together and conspired to set loose a tide of evil which is turning violence into the very oxygen we are all now breathing Davies shows in this book which may well be the most powerful and trenchant attack ever mounted on the tyranny of the modern media

experience on literatures in English worldwide **The Tale of Genji** Michael Emmerich, 2013 Michael Emmerich thoroughly revises the conventional narrative of the early modern and modern history of The Tale of Genji Exploring iterations of the work from the 1830s to the 1950s he demonstrates how translations and the global circulation of discourse they inspired turned The Tale of Genji into a widely read classic reframing our understanding of its significance and influence and of the processes that have canonized the text Emmerich begins with an analysis of the lavishly produced best seller Nise Murasaki inaka Genji A Fraudulent Murasaki's Bumpkin Genji 1829 1842 an adaptation of Genji written and designed by Ryutei Tanehiko with pictures by the great print artist Utagawa Kunisada He argues that this work introduced Genji to a popular Japanese audience and created a new mode of reading He then considers movable type editions of Inaka Genji from 1888 to 1928 connecting trends in print technology and publishing to larger developments in national literature and showing how the one time best seller became obsolete The study subsequently traces Genji's reemergence as a classic on a global scale following its acceptance into the canon of world literature before the text gained popularity in Japan It concludes with Genji's becoming a national classic during World War II and reviews an important postwar challenge to reading the work after it attained this status Through his sustained critique Emmerich upends scholarship on Japan's preeminent classic while remaking theories of world literature continuity and community
