

A glass sphere, likely a beach ball or a decorative object, is the central focus. It is positioned on a dark, textured surface, possibly rocks or pebbles. The sphere's surface is highly reflective, mirroring the scene around it. The reflection shows a sunset or sunrise over a body of water, with the sun low on the horizon, creating a warm, golden glow. The sky is a mix of soft orange and pale blue. The water in the reflection is dark with some lighter patches, suggesting waves or ripples. The overall composition is balanced and evocative, capturing a serene moment in nature.

**Fairy Tales, Myth, and Psychoanalytic Theory** Veronica L. Schanoes,2016-04-15 At the same time that 1970s feminist psychoanalytic theorists like Jean Baker Miller and Nancy Chodorow were challenging earlier models that assumed the

masculine psyche as the norm for human development and mental emotional health writers such as Anne Sexton Olga Broumass and Angela Carter were embarked on their own revisionist project to breathe new life into fairy tales and classical myths based on traditional gender roles Similarly in the 1990s second wave feminist clinicians continued the work begun by Chodorow and Miller while writers of fantasy that include Terry Windling Tanith Lee Terry Pratchett and Catherynne M Valente took their inspiration from revisionist authors of the 1970s As Schanoes shows these two decades were both particularly fruitful eras for artists and psychoanalytic theorists concerned with issues related to the development of women's sense of self Putting aside the limitations of both strains of feminist psychoanalytic theory their influence is undeniable Schanoes's book posits a new model for understanding both feminist psychoanalytic theory and feminist retellings one that emphasizes the interdependence of theory and art and challenges the notion that literary revision involves a masculinist struggle with the writer's artistic forbearers

**Folklore Genres** Dan Ben-Amos,2014-06-23 The essays in Folklore Genres represent development in folklore genre studies diverging into literary ethnographic and taxonomic questions The study as a whole is concerned with the concept of genre and with the history of genre theory A selective bibliography provides a guide to analytical and theoretical works on the topic The literary oriented articles conceive of folklore forms not as the antecedents of literary genres but as complex symbolically rich expressions The ethnographically oriented articles as well as those dealing with classification problems reveal dimensions of folklore that are often obscured from the student reading the folklore text alone It has long been known that the written page is but a pale reproduction of the spoken word that a tale hardly reflects the telling The essays in this collection lead to an understanding of the forms of oral literature as multidimensional symbols of communication and to an understanding of folklore genres as systematically related conceptual categories in culture What kinship terms are to social structure genre terms are to folklore Since genres constitute recognized modes of folklore speaking their terminology and taxonomy can play a major role in the study of culture and society The essays were originally published in Genre 1969 1971 introduction bibliography and index have been added to this edition
