Louisa May Alcott's Fairy Tales and Fantasy Stories Louisa May Alcott, 1992. While these stories can make no claim to being great art, they are an important segment of Alcott's canon. They demonstrate that while she was exploring new territory with some of her work, she was also working within the existing tradition of the didactic fairy tale.

Walking Shadows Ib Johansen, 2015-08-25. *Walking Shadows* focuses on the American fantastic and the American grotesque, attempting in this manner for the first time to establish an overview of and a theoretical approach to two literary modes that have often been regarded as essential to an understanding of the American cultural canon. The central importance of these two literary forms has been pointed out earlier by important theorists such as Stanley Cavell, David Reynolds, and William Van O'Connor. A number of literary works from the beginning of the nineteenth to the end of the twentieth centuries are taken up in order to illustrate the inherent links or family resemblances between the two modes, with special reference to the way in which a Bakhtinian reading may facilitate our appreciation of their status within the canon. These excursions into the House of Fantastic and Grotesque Fiction may be of interest not only to hardcore aficionados but also to philosophically minded readers in general, in particular perhaps to those who have paid acute attention to debates on late twentieth and early twenty-first century post-structuralism and deconstruction, where the classic positions of Foucault, Derrida, et al. still appear to be relevant.

Out of the Shadows Marilyn Pemberton, 2013-01-15. Who was Mary De Morgan and why should she be dragged out of the shadows cast by her illustrious parents, her male siblings, and the members of the Arts and Crafts circle in which she moved? Why should the academic spotlight be shone onto her life and works? De Morgan (1850-1907) was undoubtedly a woman of her time; she was unmarried and therefore one of the million or so odd women who had to earn their own living, which she did mainly by writing. She was one of the many who took part in the great effort to improve the lives of the poor in the East End of London; she was caught up in the spiritualist phenomena not only because her mother was an ardent supporter and practitioner but also because De Morgan herself was considered to be a seer. She like many Victorians suffered from the curse of tuberculosis but, despite going to live in Egypt for health reasons, she then became the directress of a girls' reformatory until her death. Through the analysis of her fairy tales, her sole novel, her non-fictional articles, and her unpublished short stories, De Morgan is revealed to be an early feminist and New Woman, an advocate of William Morris's philosophies and a social reformer but also a rather disappointed and disillusioned woman. Letters to and from her family and friends paint a colourful picture of family life during the second half of the nineteenth century, and extracts from well-known people's biographies, reminiscences, and diaries flesh out De Morgan's character and help explain why George Bernard Shaw considered her to be a devil incarnate.
