Historical Tales, the Romance of Reality Charles Morris,1893 **Story and Reality** Robert Paul Roth,2004-12-10 No Christian will dispute the importance of properly understanding the gospel And throughout the centuries the function of theology has been to aid that understanding In good part as the author of this challenging study indicates theology has turned to philosophy history sociology or yet other disciplines in an effort to make its own message clear that is theology has used philosophical or historical or sociological concepts of reality and has then attempted to impose upon reality so defined a deeper theological significance But that effort Robert Roth believes can never be completely successful since each of these disciplines valuable as they are in themselves are compelled by their nature to reduce both reality and theology to the level of what is human thus leaving out the very thing that theology is all about God Roth contends that theology must use as its model what he terms story the kind of large comprehensive tale or myth that takes into account the basic facts of the universe and human existence The nature of story he tells us is essentially dramatic filled with tension between opposing forces The conflict between good and evil for example or between hope and despair has always characterized great literature And it is precisely those same conflicts that characterize reality Little wonder that God s account of reality the gospel is cast in story form Story and Reality is an exciting and unusual approach to the question of what constitutes God s message to humanity it offers as well new insights into the nature of literature and the role story can play in helping us properly apprehend reality Roth demands an effort on the part of his readers but it is an effort that will be richly repaid

Historic Tales, The Romance of Reality: American, Spanish American, English, German, French, Spanish, Russian, Scandinavian, Greek, Roman, Japanese and Chinese, King Arthur (Complete) Charles Morris, The year 1000 A D was one of strange history Its advent threw the people of Europe into a state of mortal terror Ten centuries had passed since the birth of Christ The world was about to come to an end Such was the general belief How it was to reach its end whether by fire water or some other agent of ruin the prophets of disaster did not say nor did people trouble themselves to learn Destruction was coming upon them that was enough to know how to provide against it was the one thing to be considered

Some hastened to the churches others to the taverns Here prayers went up there wine went down The petitions of the pious were matched by the ribaldry of the profligate Some made their wills others wasted their wealth in revelry eager to get all the pleasure out of life that remained for them Many freely gave away their property hoping by ridding themselves of the goods of this earth to establish a claim to the goods of Heaven with little regard to the fate of those whom they loaded with their discarded wealth It was an era of ignorance and superstition Christendom went insane over an idea When the year ended and the world rolled on none the worse for conflagration or deluge green with the spring leafage and ripe with the works of man dismay gave way to hope mirth took the place of prayer man regained their flown wits and those who had so recklessly given away their wealth bethought themselves of taking legal measures for its recovery Such was one of the events that made that year memorable There was another of a highly different character Instead of a world being lost a world was found The Old World not only remained unharmed but a New World was added to it a world beyond the seas for this was the year in which the foot of the European was first set upon the shores of the trans Atlantic continent It is the story of this first discovery of America that we have now to tell In the autumn of the year 1000 in a region far away from fear haunted Europe a scene was being enacted of a very different character from that just described Over the waters of unknown seas a small strange craft boldly made its way manned by a crew of the hardiest and most vigorous men driven by a single square sail whose coarse woollen texture bellied deeply before the fierce ocean winds which seemed at times as if they would drive that deckless vessel bodily beneath the waves This crew was of men to whom fear was almost unknown the stalwart Vikings of the North whose oar and sail driven barks now set out from the coasts of Norway and Denmark to ravage the shores of southern Europe now turned their prows boldly to the west in search of unknown lands afar Shall we describe this craft It was a tiny one in which to venture upon an untravelled ocean in search of an unknown continent a vessel shaped somewhat like a strung bow scarcely fifty feet in length low amidships and curving upwards to high peaks at stem and stern both of which converged to sharp edges It resembled an enormous canoe rather than aught else to which we can compare it On the stem was a carved and gilt dragon the figurehead of the ship which glittered in the bright rays of the sun Along the bulwarks of the ship fore and aft hung rows of large painted wooden shields which gave an Argus eyed aspect to the craft Between them was a double row of thole pins for the great oars which now lay at rest in the bottom of the boat but by which in calm weather this walker of the seas could be forced swiftly through the yielding element

Chaucerian Theatricality John M. Ganim, 2014-07-14 Whereas modern criticism has emphasized the unity and sense of permanence in *The Canterbury Tales* John Ganim alerts us to a dialectically opposing dimension that Chaucer's poetics shares with the popular culture of the late Middle Ages his celebration of the ephemeral and his sense of performance Ganim uses the concept of theatricality to illuminate Chaucer's manipulations of the forms of popular culture and high literary discourse He calls upon recent work in semiotics and social history to question Mikhail Bakhtin's notion of the carnivalesque and the dialogic at the same time suggesting Bakhtin's usefulness in understanding Chaucer This book includes chapters on how Chaucer adopts the voice of such popular literary forms as chronicles and pious collections on his equivalence between his own image making and dramatic performance and on Chaucer's and Boccaccio's handling of the related issues of popular understanding and the creation of illusions The book concludes by describing how Chaucer conflates noise and popular expression simultaneously appropriating and distancing himself from his richest cultural context Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
