The staircase is flanked by two large, golden, winged statues that appear to be guardians. The background is a dark, atmospheric landscape with a purple and blue sky. The title 'TALISMAN' is prominently displayed in large, white, serif capital letters across the upper middle. Below it, the subtitle 'THE MAGICAL QUEST GAME' is written in a smaller, white, serif font. Above the title is a small, intricate geometric symbol. The overall theme is magical and mysterious.

United Kingdom Oil and Gas Fields G. Goffey, J.G. These papers range from look backs on some of the first developed gas fields in the Southern North Sea to papers on fields that have only just been brought into production or may still remain undeveloped and includes two candidate CO2 sequestration projects. These papers are intended to provide a consistent summary of the exploration appraisal development and production history of each field leading to the current subsurface understanding which is described in greater detail. The Governance Gap Penelope Simons, Audrey Macklin, 2014-07-11 This book explores the persistence of the governance gap with respect to the human rights impacting conduct of transnational extractive corporations operating in zones of weak governance. The authors launch their account with a fascinating case study of Talisman Energy's experience in Sudan informed by their own experience as members of the 1999 Canadian Assessment Mission to Sudan. Harker Mission Drawing on new governance reflexive law and responsive law theories the authors assess legal and other non binding governance mechanisms that have emerged since that time including the UN Guiding Principles on Business and Human Rights. They conclude that such mechanisms are incapable of systematically preventing human rights violating behaviour by transnational corporations or of assuring accountability of these actors or recompense for victims of such violations. The authors contend that home state regulation while not a silver bullet has a crucial role to play in regulating such conduct. They pick up where UN Special Representative John Ruggie's Guiding Principles on Business and Human Rights left off and propose an innovative robust and adaptable template for strengthening the regulatory framework of home states. Their model draws insights from the theoretical literature leverages existing public private transnational national soft and hard regulatory tools and harnesses the specific strengths of state based governance. This book will be of interest to academics policy makers students civil society and business leaders.
