Talk Of Love How Culture Matters:

Talk of Love Ann Swidler, 2001 The central problem she argues is that people do not face a single culture but a diverse one with multiple perspectives and competing experts American culture speaks of love that is perfect and instantaneous and yet also talks of the constant need to improve relationships *Talk of Love* shows how people navigate between these discordant messages and learn to live with these contradictions **BOOK JACKET** **Talk of Love** Ann Swidler, 2013-06-25 *Talk of love* surrounds us and romance is a constant concern of popular culture Ann Swidler's *Talk of Love* is an attempt to discover how people find and sustain real love in the midst of that talk and how that culture of love shapes their expectations and behavior in the process To this end Swidler conducted extensive interviews with Middle Americans and wound up offering us something more than an insightful exploration of love *Talk of Love* is also a compelling study of how much culture affects even the most personal of our everyday experiences *Love, Money, and HIV* Sanyu A. Mojola, 2014-05-10 How do modern women in developing countries experience sexuality and love Drawing on a rich array of interview ethnographic and survey data from her native country of Kenya Sanyu A Mojola examines how young African women who suffer disproportionate rates of HIV infection compared to young African men navigate their relationships schooling employment and finances in the context of economic inequality and a devastating HIV epidemic Writing from a unique outsider insider perspective Mojola argues that the entanglement of love money and the transformation of girls into consuming women lies at the heart of women's coming of age and health crises At once engaging and compassionate this text is an incisive analysis of gender sexuality and health in Africa **The Social Economy of Single Motherhood** Margaret Nelson, 2014-06-03 Margaret Nelson investigates the lives of single working class mothers in this compelling and timely book Through personal interviews she uncovers the different challenges that mothers and their children face in small town America a place greatly changed over the past fifty years as factory work has dried up and national chains like Walmart have moved in **Love Letters** Michelle Janning, 2018-06-14 In today's world of Tinder and texting do we write and save love letters anymore Are we more likely to save a screenshot of a text exchange or a box of paper letters from a lover How might these different ways to store a love letter make us feel Sociologist Michelle Janning's *Love Letters Saving Romance in the Digital Age* offers a new twist on the study of love letters what people do with them and whether digital or paper format matters Through stories a rich review of past research and her own survey findings Janning uncovers whether and how people from different groups including gender and age approach their love letter curatorial practices in an era when digitization of communication is nearly ubiquitous She investigates the importance of space and time showing how our connection to the material world and our attraction to nostalgia matter in actions as seemingly small and private as saving storing stumbling upon or even burning a love letter Janning provides a framework for understanding why someone may prefer digital or paper love letters and what that preference says about a person's access and attachment to powerful cultural values such as individualization taking time

in a hectic world longevity privacy and keeping cherished things in a safe place Ultimately Janning contends the cultural values that tell us how romantic love should be defined are more powerful than the format our love letters take

American Mythos Robert Wuthnow, 2009-02-09 America was built on stories tales of grateful immigrants arriving at Ellis Island Horatio Alger style transformations self made men and the Protestant work ethic In this new book renowned sociologist Robert Wuthnow examines these most American of stories narratives about individualism immigration success religion and ethnicity through the eyes of recent immigrants In doing so he demonstrates how the American mythos has both legitimized American society and prevented it from fully realizing its ideals This magisterial work is a reflection and meditation on the national consciousness It details how Americans have

traditionally relied on narratives to address what it means to be strong morally responsible individuals and to explain why some people are more successful than others in short to help us make sense of our lives But it argues that these narratives have done little to help us confront new challenges We pass laws to end racial discrimination yet lack the resolve to create a more equitable society We welcome the idea of pluralism in religion and values yet we are shaken by the difficulties immigration presents We champion prosperity for all but live in a country where families are still homeless American Mythos aptly documents this disconnect between the stories we tell and the reality we face Examining how cultural narratives may not and often do not reflect the reality of today s society it challenges readers to become more reflective about what it means to live up to the American ideal *Love and Marriage Across Social Classes in American Cinema* Stephen Sharot,2016-11-18 This book is the first comprehensive and systematic study of cross class romance films throughout the history of American cinema It provides vivid discussions of these romantic films analyses their normative patterns and thematic concerns traces how they were shaped by inequalities of gender and class in American society and explains why they were especially popular from World War I through the roaring twenties and the Great Depression In the vast majority of cross class romance films the female is poor or from the working class the male is wealthy or from the upper class and the romance ends successfully in marriage or the promise of marriage *Love and Intimacy in Contemporary Society* Ann Brooks,2019-12-06 *Love and Intimacy in Contemporary Society* reflects on relationships in contemporary society and the role of love and intimacy in framing lives The book draws on sociological perspectives cultural sociology and gender theory perspectives It looks at how love and intimacy is experienced differently and intersected by gender ethnicity race and sexuality This book aims to encourage people to understand theories of intimacy emotions and desire by examining these concepts contemporaneously and cross culturally It also explores how love and intimacy is experienced by young people and how it is impacted by age It looks at its representation in the media and film and focuses on how gender ethnicity and sexuality offer different perspectives on love and intimacy The book shows how relationships are impacted by social networking and new technologies and the opportunities and challenges posed by these new platforms for building relationships Finally the book examines how intimacy has become commercialised in late capitalism and how that acts to change relationships The book is written in an accessible way and explores a range of theoretical debates and contemporary research around emotions which can be useful for undergraduate postgraduate and doctoral study **Sandinista Narratives** Jean-Pierre Reed,2020-10-21 *Sandinista Narratives* is an analysis of the role of agency in the Nicaraguan Revolution and its aftermath Jean Pierre Reed argues that the insurrection in Nicaragua was shaped by political contingency action specific subjectivity and popular culture He also examines how Sandinista ideology contributed to state building in Nicaragua while tracing the role of post revolutionary Sandinismo as a political identity **International Handbook of Love** Claude-Hélène Mayer,Elisabeth Vanderheiden,2021-05-04 This handbook is the winner of the William B Gudykunst Award for Outstanding Book in 2023

Love in Africa Jennifer Cole,Lynn M. Thomas,2009-08-01 In recent years scholarly interest in love has flourished Historians have addressed the rise of romantic love and marriage in Europe and the United States while anthropologists have explored the ways globalization has reshaped local ideas about those same topics Yet love in Africa has been peculiarly ignored resulting in a serious lack of understanding about this vital element of social life a glaring omission given the intense focus on sexuality in Africa in the wake of HIV AIDS Love in Africa seeks both to understand this failure to consider love and to begin to correct it In a substantive introduction and eight essays that examine a variety of countries and range in time from the 1930s to the present the contributors collectively argue for the importance of paying attention to the many different cultural and historical strands that constitute love in Africa Covering such diverse topics as the reception of Bollywood movies in 1950s Zanzibar the effects of a Mexican telenovela on young people s ideas about courtship in Niger the models of romance promoted by South African and Kenyan magazines and the complex relationship between love and money in Madagascar and South Africa Love in Africa is a vivid and compelling look at love s role in African society

American Zoo David Grazian,2017-12-05 A close up look at the contradictions and wonders of the modern zoo Orangutans swing from Kevlar lined fire hoses Giraffes feast on celebratory birthday cakes topped with carrots instead of candles Hi tech dinosaur robots growl among steel trees while owls watch animated cartoons on old television sets In American Zoo sociologist David Grazian takes us on a safari through the contemporary zoo alive with its many contradictions and strange wonders Trading in his tweed jacket for a zoo uniform and a pair of muddy work boots Grazian introduces us to zookeepers and animal rights activists

parents and toddlers and the other human primates that make up the zoo's social world. He shows that in a major shift away from their unfortunate pasts, American zoos today emphasize naturalistic exhibits teeming with lush and immersive landscapes, breeding programs for endangered animals, and enrichment activities for their captive creatures. In doing so, zoos blur the imaginary boundaries we regularly use to separate culture from nature, humans from animals, and civilization from the wild. At the same time, zoos manage a wilderness of competing priorities: animal care, education, scientific research, and recreation, all while attempting to serve as centers for conservation in the wake of the current environmental and climate change crisis. The world of the zoo reflects how we project our own prejudices and desires onto the animal kingdom and invest nature with meaning and sentiment. A revealing portrayal of comic animals, delighted children, and feisty zookeepers, *American Zoo* is a remarkable close-up exploration of a classic cultural attraction.

The SAGE Handbook of Cultural Sociology David Inglis, Anna-Mari Almila, 2016-05-09 Cultural sociology or the sociology of culture has grown from a minority interest in the 1970s to become one of the largest and most vibrant areas within sociology globally. In *The SAGE Handbook of Cultural Sociology*, a global range of experts explore the theory, methodology, and innovations that make up this ever-expanding field. The Handbook's 40 original chapters have been organized into five thematic sections: Theoretical Paradigms, Major Methodological Perspectives, Domains of Inquiry, Cultural Sociology in Contexts, and Cultural Sociology and Other Analytical Approaches. Both comprehensive and current, *The SAGE Handbook of Cultural Sociology* will be an essential reference tool for both advanced students and scholars across sociology, cultural studies, and media studies.

The Curious History of Love Jean-Claude Kaufmann, 2011-12-12 The one emotion that matters most to many people is the one about which social thinkers rarely speak: love. For many people, love is the thing that matters most in their lives; they are searching for love, hoping to find in love a kind of happiness that they cannot find in their work or by surrounding themselves with material goods. But where does this peculiar and powerful blending together of love and happiness come from, and why do we find it such a compelling idea today? In this short book, Jean-Claude Kaufmann offers a fresh account of the history of a feeling unlike any other. The modern idea of love as passion was born in the 12th century, but it was marginalized by the rise of a kind of instrumental, calculating reason that became increasingly central to modern societies. As calculating reason began to encroach on the personal domain, many individuals sought to escape from it, searching for happiness elsewhere. As our societies become dominated by calculating reason and selfish individualism, we search elsewhere for the kind of happy love that will heal all our wounds. This is why we experience so many changes of heart in our personal lives: at times we are coldly calculating, and then a few moments later we sacrifice ourselves to love without a second thought. Written by one of France's leading sociologists, this highly readable book sheds new light on love and happiness and will resonate with many readers.

Meanings of Life in Contemporary Ireland T. Inglis, 2014-11-06 The struggle to create and sustain meaning in our everyday lives is fought using cultural ingredients to spin the webs of meaning that keep us going. To help reveal the

complexity and intricacy of the webs of meaning in which they are suspended Tom Inglis interviewed one hundred people in their native home of Ireland to discover what was most important and meaningful for them in their lives Inglis believes language is a medium there is never an exact correspondence between what is said and what is felt and understood Using a variety of theoretical lenses developed within sociology and anthropology Inglis places their lives within the context of Ireland's social and cultural transformations and of longer term processes of change such as increased globalisation individualisation and informalisation

Negotiating Love in Post-revolutionary Nicaragua Turid Hagene, 2008 This book explores the issue of love and its place in the reproduction of gender asymmetry in Nicaragua The theme is discussed in the context of specific religious and work practices living arrangements gender values and norms and the gender practices and legislation of the Sandinista revolution The study uses lifeworld phenomenology as its theoretical approach placing people's own experience center stage Therefore a case study of the Esperanza sewing cooperative is presented built on life stories interview materials and participant observation with the cooperative women and their husbands The material and discursive practices and emotional experiences of men and women are examined in this particular socio cultural setting How do we account for the highly unequal bargains the women strike with their husbands accepting large material responsibilities and time share love even if they experience this as emotionally hurtful The study testifies to women's autonomy in family maintenance and religious practices an autonomy which seems to falter in the fields of love and sexuality some of the men and women however negotiate subtle changes in gender norms and values
