Swamy,2016-03-24 Muthuraj Swamy provides a fresh perspective on the world religions paradigm and interreligious dialogue By challenging the assumption that world religions operate as essential entities separate from the lived experiences of practitioners he shows that interreligious dialogue is in turn problematic as it is built on this very paradigm and on the myth of religious conflict Offering a critique of the idea of dialogue as it has been advanced by its proponents such as religious leaders and theologians whose aims are to promote inter religious conversation and understanding the author argues that this approach is elitist and that in reality people do not make sharp distinctions between religions nor do they separate political economic social and cultural beliefs and practices from their religious traditions Case studies from villages in southern India explore how Hindu Muslim and Christian communities interact in numerous ways that break the neat categories often used to describe each religion Swamy argues that those who promote dialogue are ostensibly attempting to overcome the separate identities of religious practitioners through understanding but in fact they re enforce them by encouraging a false sense of separation *The Problem with Interreligious Dialogue* Plurality Conflict and Elitism in Hindu Christian Muslim Relations provides an innovative approach to a central issue confronting Religious Studies combining both theory and ethnography *Pathways to Change, Second Edition* Matthew D. Communicating with One Another Sabine Kowal, 2009-03-02 In contrast to traditional approaches of mainstream psycholinguists the authors of *Communicating with One Another* approach spontaneous spoken discourse as a dynamic process rich with structures patterns and rules other than conventional grammar and syntax Daniel C O Connell and Sabine Kowal thoroughly critique mainstream psycholinguistics proposing instead a shift in theoretical focus from experimentation to field observation from monologue to dialogue and from the written to the spoken They invoke four theoretical principles intersubjectivity perspectivity open endedness and verbal integrity Their analyses of historical and original research raise significant questions about the

relationship between spoken and written discourse particularly with regard to transcription and punctuation With emphasis on political discourse media interviews and dramatic performance the authors review both familiar and unexplored characteristics of spontaneous spoken communication including 1 The speaker's use of prosody 2 The functions of interjections 3 What fillers do for a living 4 Turn taking Smooth and otherwise 5 Laughter applause and booing from individual listener to collective audience 6 Pauses silence and the art of listening The paradigm shift proposed in Communicating with One Another will interest and provoke readers concerned about communicative language use including psycholinguists sociolinguists and anthropological linguists

Intelligent Virtual Agents Thomas Rist, Ruth Aylett, Daniel Ballin, Jeff

Rickel, 2003-12-15 This volume containing the proceedings of IVA 2003 held at Kloster Irsee in Germany September 15-17 2003 is testimony to the growing importance of Intelligent Virtual Agents (IVAs) as a research field. We received 67 submissions nearly twice as many as for IVA 2001 not only from European countries but from China, Japan and Korea and both North and South America. As IVA research develops a growing number of application areas and platforms are also being researched. Interface agents are used as part of larger applications often on the Web. Education applications draw on virtual actors and virtual drama while the advent of 3D mobile computing and the convergence of telephones and PDAs produce geographically aware guides and mobile entertainment applications. A theme that will be apparent in a number of the papers in this volume is the impact of embodiment on IVA research a characteristic differentiating it to some extent from the larger field of software agents.
