## **Talking About Politics:**

*Talking Politics* Taylor N. Carlson, Marisa Abrajano, Lisa García Bedolla, 2020-05-05 Over five decades of research has made clear that social networks can have an important impact on our political behavior Yet most studies only examine the effects of political networks on White Americans This book draws on quantitative and qualitative analyses of 4000 White American African American Latino and Asian American people to explore inter and intra ethnoracial differences in social network composition size partisanship policy attitudes and homophily in political and civic engagement **Talking Politics** A. W. Sparkes, 2006-06-19 *Talking Politics* is a philosophical examination of some of the basic concepts of political discourse Its primary focus is on the ordinary on what is said by politicians in newspapers and by people in pubs rather than on the works of political theorists This is a work of but not on political theory *Talking Politics* is Invaluable as a source of reference for students and contains a detailed index Arranged thematically around topics such as Nation Each entry has copious cross references and suggestions for further reading A W Sparkes is uniquely qualified to write such a book combining some thirty years teaching as a philosopher with wide experience of and a life long fascination with politics His attitude is that of a critical but uncynical observer **Talking Politics?** Sheila Suess Kennedy, 2014-06-02 Honest objective and informed political debates are all too rare in today's polarized and partisan climate Public policy is increasingly driven by ideology while political spin distortions and even demonizing opponents by disseminating outright lies are routine practice from Washington to the local city council Super heated and hyper partisan rhetoric increasingly homogeneous political and ideological communities and the public's spotty knowledge about our political system all undermine informed and considered responses to policy debates This book identifies common areas of confusion or misunderstanding about our political system clarifying many distortions of accepted history constitutional law economics and science to help readers distinguish documented facts from the different conclusions and interpretations that may be drawn from those facts Sheila Suess Kennedy aims to create a more informed electorate and to better ground debates in fact from Capitol Hill to the family dinner table *Talking Politics* What You Need to Know before Opening Your Mouth provides a solid starting point from which Americans can build more persuasive arguments for their preferred policies whatever they may be and will interest students of political science civics and history from high school to undergraduates and the general public interested in politics and informed discussion **Talking Politics** Taylor N. Carlson, Marisa Abrajano, Lisa García Bedolla, 2020 Over five decades of research has made clear that social networks can have an important impact on our political behavior Specifically when we engage in political conversation within these networks we develop connections that increase the likelihood that we will become politically active Yet most studies of political behavior focus on individuals rather than the effects of networks on political behavior Furthermore any studies of networks have by and large been based on White Americans Given what we know about the ways in which neighborhood cultural friend and family networks tend to segregate along ethnic and racial

lines the authors of this book argue that we can assume that political networks segregate in much the same way This book draws on quantitative and qualitative analyses of 4000 White American African American Latino and Asian American people to explore inter and intra ethnoracial differences in social network composition size partisanship policy attitudes and homophily in political and civic engagement The book thus makes three key contributions 1 it provides for the first time detailed comparative analysis of how political networks vary across and within ethnoracial groups 2 demonstrates how historical differences in partisanship policy attitudes and engagement are reflected within groups social networks and 3 reveals the impact that networks can have on individuals political and civic engagement **Talking Politics in Broadcast**

action builds community and creates hope Whether you re a first time volunteer or seasoned activist *The Joy of Talking Politics with Strangers* shows you how to engage more effectively with voters and win elections What Goes Without Saying Taylor N. Carlson,Jaime E. Settle,2022-06-09 Why are political conversations uncomfortable for so many people The current literature focuses on the structure of people s discussion networks and the frequency with which they talk about politics but not the dynamics of the conversations themselves In *What Goes Without Saying* Taylor N Carlson and Jaime E Settle investigate how Americans navigate these discussions in their daily lives with particular attention to the decision making process around when and how to broach politics The authors use a multi methods approach to unpack what they call the 4D Framework of political conversation identifying the ways that people detect others views decide whether to talk discuss their opinions honestly or not and determine whether they will repeat the experience in the future In developing a framework for studying and explaining political discussion as a social process *What Goes Without Saying* will set the agenda for research in political science psychology communication and sociology for decades to come Nationalist Politics and Everyday Ethnicity in a Transylvanian Town Rogers Brubaker,Margit Feischmidt,Jon Fox,Liana Grancea,2018-06-05 Situated on the geographic margins of two nations yet imagined as central to each Transylvania has long been a site of nationalist struggles Since the fall of communism these struggles have been particularly intense in Cluj Transylvania s cultural and political center Yet heated nationalist rhetoric has evoked only muted popular response The citizens of Cluj the Romanian speaking majority and the Hungarian speaking minority have been largely indifferent to the nationalist claims made in their names Based on seven years of field research this book examines not only the sharply polarized fields of nationalist politics in Cluj Transylvania and the wider region but also the more fluid terrain on which ethnicity and nationhood are experienced enacted and understood in everyday life In doing so the book addresses fundamental questions about ethnicity where it is when it matters and how it works Bridging conventional divisions of academic labor Rogers Brubaker and his collaborators employ perspectives seldom found together historical and ethnographic institutional and interactional political and experiential Further developing the argument of Brubaker s groundbreaking *Ethnicity without Groups* the book demonstrates that it is ultimately in and through everyday experience as much as in political contestation or cultural articulation that ethnicity and nationhood are produced and reproduced as basic categories of social and political life *Talking Politics* William A. Gamson,1992-08-28 Those who analyze public opinion have long contended that the average citizen is incapable of recounting consistently even the most rudimentary facts about current politics that the little the average person does know is taken strictly from what the media report with no critical reflection and that the consequence is a polity that is ill prepared for democratic governance And yet social movements comprised by and large of average citizens have been a prominent feature of the American political scene throughout American history and have experienced a resurgence William Gamson asks how is it that so many people become active in movements if they are so uninterested and badly informed about issues

The conclusion he reaches in this book is a striking refutation of the common wisdom about the public's inability to reason about politics [Lcr, Like, Comment, Retweet](#) Heidi A. Urban, National Defense University (U S ), 2017-06-30 Through a survey of more than 500 military elites attending the United States Military Academy and National Defense University this project seeks to establish the nature and extent of political expression by members of the military throughout social media and whether or not such expression is in keeping with the norm of nonpartisanship Findings suggest that while most military elites continue to identify as conservative and Republican fewer appear to do so today than at any other time over the past 30 years Second military elites actively use social media networking sites although younger elites are more prolific in their use Third while respondents nonmilitary friends were more politically active than their military friends both active duty and retired military actively participate in multiple forms of political and partisan expression from posting comments on political issues to friending political figures This study concludes by considering the implications these findings carry for the norms of an apolitical nonpartisan military Technology and social media make it seductively easy for us to broadcast our private opinions far beyond the confines of our homes The lines between the professional personal and virtual are blurring Now more than ever we have to be exceptionally thoughtful about what we say and how we say it General Martin E Dempsey USA Ret Military Leadership and Planners Congress Social Media Experts Academicians in social media and communications Related products Social Media The Fastest Growing Vulnerability to the Air Force Mission can be found here <https://bookstore.gpo.gov/products/social-media-fastest-growing-vulnerability-air-force-mission> Social Media The Vital Ground Can We Hold It is available here <https://bookstore.gpo.gov/products/social-media-vital-ground-can-we-hold-it> Other products published by the US Army National Defense University Press can be found here <https://bookstore.gpo.gov/agency-national-defense-university-ndu>
