The Hamlyn Of Wines:

The Hamlyn Book of Wines John Paterson,1975 The Hamlyn Pocket Dictionary of Wines John Paterson,1980-01-01

The Wine Pioneers Anton Massel,2008 At first there were the horticulturists and wine growers then came the wine makers the coopers and the cellar masters Inevitably there were wine shippers and wine merchants Chemists and biologists added their skills in the past two centuries and only very recently came the oenologists and the professional wine tasters Wine writers play an important role in today s wine trade and there were always wine connoisseurs and wine snobs From 5000BC to the modern day this book provides a chronological history of the wine pioneers through the ages *Hamlyn Atlas of Wine* Alice King,1993 **The Spirituality of Wine** Gisela H. Kreglinger ,2016 Wine serves an important role both in Scripture and in the Christian church but its significance has received relatively little theological attention in modern times This book fills that gap Viewing wine as a gift of God s created bounty and as a special symbol used pervasively throughout Scripture Kreglinger canvasses the history of wine in the church particularly its use in the Lord s Supper discusses the fascinating process of winemaking and considers both the health benefits of wine and the dangers of alcohol abuse Offering a vision of the Christian life that sees God in all things including the work of a vintner and the enjoyment of a well crafted glass of wine Easy Wine Making in 21 days John George,Barrie Anderson,1983 **New York City Directory** ,1880 *The Seventeenth-Century Customs Service Surveyed* William B. Stephens,2016-03-03 In January 1682 William Culliford a loyal and experienced officer in the King s customs service began an extraordinary journey under Treasury orders to investigate the integrity and efficiency of the customs establishments of southwest England and south Wales as part of a drive to maximize the Crown s income from customs duties on which it relied for much of its revenue Starting at Bristol Culliford eventually completed this daunting task in Cornwall over two years later in the spring of 1684 His report on each of the ports he inspected the primary source for this book revealed widespread smuggling and fraud in the context of a customs service both lacking in efficiency and riddled with corruption The book documents the varied frauds and wide ranging abuses uncovered and their facilitation by customs officers only too ready to collude with smugglers dishonest merchants and seamen and to accept bribes to ignore tax evasion It describes too Culliford s assessment of the administrative practices of each port inspected and his judgment on the levels of probity and efficiency of individual officers detailing his recommendations for procedural improvements and the treatment of the corrupt and incompetent and incidentally of those suspected of political and religious dissent Additionally the book presents a body of statistical data on the customs revenue actually collected at individual ports in the 1670s and 1680s and surveys the extent and nature of the maritime trade of the ports Culliford examined It thus not only throws light on the history of the customs service but provides a rare insight into the interactions of economic social and political issues in the later seventeenth century and makes a valuable contribution to the particular histories of the ports and maritime districts visited by this energetic and tenacious investigator **Trow's**

To Feed A Nation Keith Farrer, 2005-02-24 To Feed a Nation takes the reader on a journey over the centuries describing the slow and arduous development of Australian food technology and science from before European settlement to the latter half of the twentieth century The first part of the book gives a fascinating glimpse into Aboriginal food and culture outlines the primitive state of European food technology at the time of the First Fleet and shows how the colonists tried to transfer to Australia the village technologies they knew in England The second part describes how for most of the nineteenth century technology preceded science the processing and storage of food relied on methods which by trial and error had been shown to work and food science was slow to emerge The final part of the book highlights the twentieth century watershed how a growing understanding of the nature of food the principles of nutrition and the role of micro organisms was able to propel food technology to where it is today The publication of To Feed a Nation has been sponsored by the Food Technology Association of Victoria

Wine and the Vine P. T. H. Unwin, 1996 Wine and the Vine provides an introduction to the historical geography of viticulture and the wine trade from prehistory to the present Throughout the rich symbolic and cultural significance of wine is related to its evolution as a commercial product The book thus discusses both the numerous symbolic roles assigned to wine and the vine by people of different religions and also the internationalisation of wine production and marketing

Rations, A Very Peculiar History David Arscott, 2012-01-19 When war broke out in 1939 few knew that they would soon be fighting to survive let alone how or when it would end Rations A Very Peculiar History looks at the measures the British government took to ensure the wellbeing of its people during wartime and how the British public dealt with it With some stealing some hoarding but most just trying to get by it was one of the bleakest periods in British history But there s a reason they called it the Blitz spirit this title features amazing tales of camaraderie and good humour in the face of bombs and hunger Featuring incredible food and energy saving recipes used at the time along with quotes from survivors Rations A Very Peculiar History will transport you back to a time when even Buckingham Palace and the Ritz hotel weren t above swapping a bit of venison for a bit of lobster
