contributions is such that it is almost impossible to enumerate all the areas of philosophy that have been influenced by him. His concepts possess a historical evolution and are in a perpetual state of development particularly within the context of contemporary Whiteheadian scholarship. Whiteheadian philosophers do of course investigate and develop further Whitehead's legacy and it is thus advisable to probe these contemporary assessments of Whitehead. The present volume aims to do just that. In order to do so the book is divided into four parts: 1 General concepts and basic skills in education 2 The future of education 3 Arts and ethics 4 Community medicine psychology. Using a variety of disciplinary approaches to regionally and topically diverse case studies, the contributors to this edited volume show how particular versions of the past are selected, re-invented, disseminated and consumed for contemporary purposes. These studies explore how the Chinese state utilises heritage not only for tourism, entertainment, educational and commercial purposes but also as part of broader political strategies on both the national and international stage. Together they argue that the Chinese state deploys modes of heritage governance to construct new modernities while strengthening collective national identity in support of both its political legitimacy and its claim to status as an international superpower. The authors also consider ways in which state management of heritage is contested by some stakeholders whose embrace of heritage has a different purpose and meaning. The Politics of Heritage Jo Littler, Roshi Naidoo, 2005 This collection explores how the heritage industry and cultural policy have responded to questions of nation and national identity.

The Impacts of Dictatorship on Heritage Management Minjae Zoh, 2020-10-06 The relationship between heritage and dictatorship has arguably been relatively understudied compared to research on the nation state. In recognising the importance of understanding how different political systems can have various and particular outcomes on heritage, *The Impacts of Dictatorship on Heritage Management* has developed the concept of Authorised Dictatorial Discourse (ADD) to the ever-growing and evolving field of Heritage Studies. Through the exploration of the various impacts a dictatorship can have on the management and uses of heritage sites, this book sets out to examine how a dictator's interests in certain heritage sites and particularly territories can affect how heritage becomes preserved and promoted in both the mid and long terms. Building on Laurajane Smith's seminal works on Authorised Heritage Discourse (AHD) in her book *Uses of Heritage* (Routledge, 2006), this book also seeks to gain a more precise and in-depth understanding of the relationship between heritage and dictatorship, how authorised discourses on heritage have been exercised and how territory policies that influenced the

preservation and promotion of heritage sites have been executed In doing so The Impacts of Dictatorship on Heritage Management aims to provide a better insight into demonstrate how and the extent to which the politics of heritage and territory can be interlinked with this type of political system This book will appeal to those with a keen interest in heritage management dictatorship and heritage South Korean heritage and theoretical heritage management It will be of particular interest to research students and scholars who are part of this interdisciplinary field **The Routledge Handbook of Heritage Destruction** José Antonio González Zarandona, Emma Cunliffe, Melathi Saldin, 2023-08-10 The Routledge Handbook of Heritage Destruction presents a comprehensive view on the destruction of cultural heritage and offers insights into this multifaceted interdisciplinary phenomenon the methods scholars have used to study it and the results these various methods have produced By juxtaposing theoretical and legal frameworks and conceptual contexts alongside a wide distribution of geographical and temporal case studies this book throws light upon the risks and the realizations of art and heritage destruction Exploring the variety of forces that drive the destruction of heritage the volume also contains contributions that consider what forms heritage destruction takes and in which contexts and circumstances it manifests Contributors including local scholars also consider how these drivers and contexts change and what effect this has on heritage destruction and how we conceptualise it Overall the book establishes the importance of the need to study the destruction of art and cultural heritage within a wider framework that encompasses not only theory but also legal military social and ontological issues The Routledge Handbook of Heritage Destruction will contribute to the development of a more complete understanding and analysis of heritage destruction The Handbook will be useful to academics students and professionals with interest in heritage conservation and preservation history and art history archaeology anthropology philosophy and law *Evolving Heritage Conservation Practice in the 21st Century* Christina Cameron, 2023-06-03 This book focuses on current trends in cultural heritage conservation and their influence on heritage practice Seen through the lenses of World Heritage historic urban landscapes heritage tourism climate change or the nature culture nexus these challenges call for innovative approaches to protect and conserve our heritage places The book brings together the voices of different stakeholders in the heritage conservation process ranging from scholars site managers and government officials to young professionals and students **The Bellbo heritage** Verner von Heidenstam, 1925 **Heritage** Victoria Sackville-West, 1919
