## **The Lipstick Circus:**

The Lipstick Circus Brian McCabe, 1985-01      The Mainstream Companion to Scottish Literature Trevor Royle, 2012-01-06 The Mainstream Companion to Scottish Literature is the most comprehensive reference guide to Scotland's literature covering a period from the earliest times to the early 1990s. It includes over 600 essays on the lives and works of the principal poets, novelists, dramatists, critics, and men and women of letters who have written in English, Scots, or Gaelic. Thus, as well as such major writers as Robert Henryson, William Dunbar, Gavin Douglas, Allan Ramsay, Robert Fergusson, Robert Burns, Walter Scott, Robert Louis Stevenson, and Hugh MacDiarmid, the Companion also lists many minor writers whose work might otherwise have been overlooked in any survey of Scottish literature. Also included here are entries on the lives of other more peripheral writers such as historians, philosophers, diarists, and divines whose work has made a contribution to Scottish letters. Other essays range over such general subjects as the principal work of major writers, literary movements, historical events, the world of printing and publishing, folklore, journalism, drama, and Gaelic. A feature of the book is the inclusion of the bibliography of each writer and reference to the major critical works. This comprehensive guide is an essential tool for the serious student of Scottish literature as well as being an ideal guide and companion for the general reader.

The Red Hog of Colima John Linklater, 1989      Hearst's International Combined with Cosmopolitan, 1927      *Is this a Culture of Trauma? An Interdisciplinary Perspective* Jessica Aliaga Lavrijsen, Michael Bick, 2019-01-04 This volume was first published by Interdisciplinary Press in 2013. The 20th century has been characterised by an unprecedented violence that seems to have left an imprint in contemporary societies from the two World Wars or the terrorist attack of 9/11 to natural catastrophes or sexual abuse. All of these terrible experiences have been collected, represented, and communicated by many different people, especially in the last few decades, as seen in the high number of books and films dealing with traumatic experiences. As a result, an interdisciplinary trauma studies field has emerged. At the 2nd Global Conference Trauma Theory and Practice, an interdisciplinary conference hosted in Prague in the spring of 2012, academics and professionals met to explore and debate issues surrounding the experience of individual and collective traumas, their representations in art, and some theoretical approaches to trauma. This book is a collection of the papers presented at the conference, a snapshot of the current work in the field of trauma studies.

Selected Stories Brian McCabe, 2003      Literature of Scotland Roderick Watson, 2006-11-24 Critics hailed the first edition of *The Literature of Scotland* as one of the most comprehensive and fascinatingly readable accounts of Scottish literature in all three of the country's languages: Gaelic, Scots, and English. In this extensively revised and expanded new edition, Roderick Watson traces the lives and works of Scottish writers in a beautiful and rugged country that has been divided by political and religious conflict but united too by a democratic and egalitarian ideal of nationhood. *The Literature of Scotland: The Twentieth Century* provides a comprehensive account of the richest ever period in Scottish literary history.
