The Enlightenment saw a critical engagement with the ancient idea that music carries certain powers it heals and pacifies civilizes and educates Yet this interest in musical utility seems to conflict with larger notions of aesthetic autonomy that emerged at the same time In Enlightenment Orpheus Vanessa Agnew examines this apparent conflict and provocatively questions the notion of an aesthetic philosophical break between the eighteenth and nineteenth centuries Agnew persuasively connects the English traveler and music scholar Charles Burney with the ancient myth of Orpheus She uses Burney as a guide through wide ranging discussions of eighteenth century musical travel views on music s curative powers interest in non European music and concerns about cultural identity Arguing that what people said about music was central to some of the great Enlightenment debates surrounding such issues as human agency cultural difference and national identity Agnew adds a new dimension to postcolonial studies which has typically emphasized the literary and visual at the expense of the aural She also demonstrates that these discussions must be viewed in context at the era s broad and well entrenched transnational network and emphasizes the importance of travel literature in generating knowledge at the time A new and radically interdisciplinary approach to the question of the power of music its aesthetic and historical interpretations and political uses Enlightenment Orpheus will appeal to students and scholars in historical musicology ethnomusicology German studies eighteenth century history and comparative studies *America’s Great Age of Rhetoric, 1770-1860* Merrill D. Whitburn, 2024-05-13 This book analyzes the advocacy conceptualization and institutionalization of rhetoric from 1770 to 1860 Among the forces promoting advocacy was the need for oratory calling for independence the belief that using rhetoric was the way to succeed in biblical interpretation and preaching and the desire for rhetoric as entertainment Conceptually leaders followed classical and German rhetoricians in viewing rhetoric as an art of ethical choice Institutionally a rhetorician such as Ebenezer Porter called for the development of organizations at all levels a sociology of rhetoric Orville Dewey highlighted the passion for rhetoric calling his times the age of eloquence **Citizens in a Strange Land** Hermann Wellenreuther, 2015-06-26 In *Citizens in a Strange Land* Hermann Wellenreuther examines the broadsides printed single sheets produced by the Pennsylvania German community These broadsides covered topics ranging from local controversies and politics to devotional poems and hymns Each one is a product of and reaction to a particular historical setting To understand them fully Wellenreuther systematically reconstructs Pennsylvania s print culture the material conditions of life the problems German settlers faced the demands their communities made on the individual settlers the complications to be overcome and the needs to be satisfied He shows how these broadsides provided advice projections and comment on phases of life from cradle

to grave Perfectibilists Terry Melanson,2011-12-01 Presenting an advanced and authoritative perspective this definitive study chronicles the rise and fall of the Order of the Illuminati a mysterious Enlightenment era guild surrounded by myth Describing this enigmatic community in meticulous detail more than 1 000 endnotes are included citing scholars professors and academics Contemporary accounts and the original documents of the Illuminati themselves are covered as well Copiously illustrated and featuring biographies of more than 400 confirmed members this survey brings to light a 200 year old mystery Thomas Jefferson: Moralist M. Andrew Holowchak,2017-04-03 Much of the scholarship on Thomas Jefferson characterizes him as a consummate immoralist Yet he had a keen interest in morality and most of his reading when he was not immersed in politics was for moral study Jefferson once told his physician Vine Utley that he seldom went to sleep without first reading something morally inspiring Some Jefferson scholars consider him at best a moral dilettante with incoherent views Others see him as a Stoic interested in virtue as measured by both intentions and outcomes who in later life became an Epicurean weighing pleasure versus ends Drawing on a careful reading of his writings and an examination of his known readings on morality this study argues that Jefferson developed early a consistent moral sense Stoical in essence and focused on his own moral improvement and maintained it throughout his life Charles [i.e. Christoph] Daniel Ebeling Charles Israel Landis,1929 *Monatshefte* ,1975
