Chapter 8 - Time Management

Time management can be one of the greatest challenges for business owners, particularly when their enterprise is enjoying growth.

If it is not managed effectively, you can quickly find yourself overwhelmed by an array of tasks all competing for your time on a day-to-day basis.

It is completely normal to feel surprised that business owners and entrepreneurs are highly susceptible to burnout with frequent stress levels. It is not surprising that they are more at risk because they tend to be extremely passionate about work and more socially isolated, have limited safety nets, and operate in high uncertainty.

It all sounds a little grim, the reality is mitigating the risk of burnout is effectively managing both your time and your energy.
