The Lives And Legends Of Jacques Lacan:

The Lives and Legends of Jacques Lacan Catherine Clément, 1983 If Catherine Clément took to writing the Lives and Legends of Jacques Lacan it was not only to reconnect with her lost youth It was an act of fidelity She set out to portray her own private Lacan the figure she kept behind other people's gloss and commentary *The Lives and Legends of Jacques*

Lacan Catherine Clément, 1985-06 **The other Side of Desire** Tamise Van Pelt, 2012-02-01 The other Side of Desire puts Jacques Lacan's theoretical constructs to work on texts as varied as Plato's Symposium Hamlet Tootsie and the journals of Sylvia Plath making the techniques of Lacanian analysis accessible to a wide variety of readers Moving from oppositional readings of Lacan himself through Lacan's search for an alternative to oppositionality to his solution in the theory of the registers Van Pelt rereads Lacan's most significant essays on aggressivity the mirror stage the subversion of the subject and the signification of the phallus making explicit the reading practices implicit in Lacan's first seven Seminars and his critics Throughout Van Pelt demonstrates Lacanian theory's pivotal role in the intellectual transition from the poststructuralism of the mid twentieth century to the post humanism of the twenty first **God Is Undead** Lorenzo Chiesa, Adrian

Johnston, 2025-02-20 The undead are neither alive nor dead They are animate yet non living In *God Is Undead* Lorenzo Chiesa and Adrian Johnston contend that true unbelief today sees the divine precisely as exemplifying such undeath In *God Is Undead* Chiesa and Johnston delve into and deepen the insights of both Freudian and Lacanian psychoanalysis as regards unbelief This analytic perspective reveals that modern atheisms appealing to a scientific worldview as an antidote to orthodox religious faith end up as heterodox theisms of Nature Reason Knowledge or even the Market itself They ironically place new gods of their own atop the graves of the traditional gods of old They likewise forget the religious influences underlying modern science One of the most important and novel contributions of *God Is Undead* is its gesture of dignifying unbelief as something that is able to contain multitudes Far from a unified homogeneous and flatly bleak position irreligiosity can come in many forms whose convergences and divergences contain possibilities for creatively thinking and living differently This book shows such variegated non belief in action We have two unbelievers vigorously disagreeing with each other about fundamental ontological matters thereby bringing to light critical questions going to the very heart of any unbelief whatsoever Can an atheism as thoroughly atheistic ever believe in or be certain of itself What is the role of agnosticism and specifically of an agnosticism strengthening rather than contrasting with atheism in all this How might different unbelievers become what Freud calls comrades in unbelief without erecting new gods in the process [Visualizing Theory](#) Lucien Taylor, 2014-02-04 *Visualizing Theory* is a lavishly illustrated collection of provocative essays occasional pieces and dialogues that first appeared in *Visual Anthropology Review* between 1990 and 1994 It contains contributions from anthropologists from cultural literary and film critics and from image makers themselves Reclaiming visual anthropology as a space for the critical representation of visual culture from the naive realist and exoticist inclinations that have beleaguered

practitioners efforts to date Visualizing Theory is a major intervention into this growing field **Fatal Women** Lynda Hart,2023-11-14 A groundbreaking and provocative look at how violent women have been represented in literature plays film and performance Fatal Women builds a complex and original theory of how the shadow of the lesbian animates representations of violent women from the Victorian novel to films depicting women who kill Starting from the historical link between criminality and sexual deviancy Lynda Hart critiques constructions of gender race class sexualities and the cultural politics of the 1990s Her introductory chapter constructs a theory of female violence across the discourses of sexology criminology and psychoanalysis Subsequent chapters detail this theory in the Victorian novel and stage sensation Lady Audley s Secret Frank Wedekind s Lulu Plays which introduced the invert to the European stage the films Thelma and Louise Mortal Thoughts and Basic Instinct the political intersection of race and gender in Single White Female the performance art of Karen Finley in the context of the censorship debates the fate of Aileen Wuornos dubbed the first female serial killer by the FBI and the Split Britches performance Lesbians Who Kill A major contribution to lesbian theory and cultural studies Fatal Women is certain to be read widely by scholars students and anyone interested in the politics of representation **Key Concepts of Lacanian Psychoanalysis** Dany Nobus,2020-10-13 By detailing the constitutive incompleteness of the Lacanian project the contributors have guaranteed the success of their book which will remain a major reference for a long time to come Joan Copjec **Downcast Eyes** Martin Jay,1993-10-01 Long considered the noblest of the senses vision has increasingly come under critical scrutiny by a wide range of thinkers who question its dominance in Western culture These critics of vision especially prominent in twentieth century France have challenged its allegedly superior capacity to provide access to the world They have also criticized its supposed complicity with political and social oppression through the promulgation of spectacle and surveillance Martin Jay turns to this discourse surrounding vision and explores its often contradictory implications in the work of such influential figures as Jean Paul Sartre Maurice Merleau Ponty Michel Foucault Jacques Lacan Louis Althusser Guy Debord Luce Irigaray Emmanuel Levinas and Jacques Derrida Jay begins with a discussion of the theory of vision from Plato to Descartes then considers its role in the French Enlightenment before turning to its status in the culture of modernity From consideration of French Impressionism to analysis of Georges Bataille and the Surrealists Roland Barthes s writings on photography and the film theory of Christian Metz Jay provides lucid and fair minded accounts of thinkers and ideas widely known for their difficulty His book examines the myriad links between the interrogation of vision and the pervasive antihumanist antimodernist and counter enlightenment tenor of much recent French thought Refusing however to defend the dominant visual order he calls instead for a plurality of scopic regimes Certain to generate controversy and discussion throughout the humanities and social sciences Downcast Eyes will consolidate Jay s reputation as one of today s premier cultural and intellectual historians **Language Poetry** Linda M. Reinfeld,1992-02-01 In this book Linda Reinfeld explores the relationship between contemporary critical theory and the new form of poetic

expression visible in the work of Charles Bernstein Michael Palmer and Susan Howe called Language poetry She holds that the experimental work of the Language poets should not be dismissed as esoteric or inaccessible Language poetry may be read as an American response to critical theory It rejects both the Romantic and the Modernist aesthetic and refuses to account for diversity by the imposition of unifying schemes or rigid structures The role of the Language poet merges with that of the critic in recognition that reading cannot flourish apart from writing nor poet apart from audience According to Reinfeld the new genre serves as an antidote to the ills of mystification by reminding us of the limits of ideology and it offers a vision of writing as rescuing us from a abstractions that deny the openness of language Although often viewed as a new trend in poetic expression Language poetry comes out of a strong social and intellectual tradition Reinfeld traces its interests and concerns to Gertrude Stein and Ludwig Wittgenstein among others and finds its poetic antecedents to extend through English and American literature She explores the work of Bernstein Palmer and Howe in juxtaposition with modern critical theory as it appears in the writings of Jacques Derrida Theodor Adorno and Roland Barthes Language Poetry is a timely book on an influential literary movement Reinfeld s analysis of this writing is sure to illuminate the study of American poetics and critical theory

Michel De Certeau Ben Highmore, 2006-06-19 Michel de Certeau is becoming increasingly recognised as a cultural theorist whose methodologies could rival those of Foucault In this engaging book Ben Highmore provides a stimulating account of Michel de Certeau s work and its relation to the field of cultural studies The book explores those aspects of de Certeau s work that both challenge and re imagine cultural studies highlighting the potential this work has for supplying a critical epistemology and a practical ethics for the study of culture within the arts and humanities more generally Michel de Certeau Analysing Culture provides an ideal introduction to the work of this extraordinary and important thinker
