James E. Strick

The Living State With Observations On Cancer:

The Living State Albert Szent-Gyorgyi, 2012-12-02 The Living State With Observations on Cancer explores some facets of life including its pattern and structure cellular mechanisms and its connection with biochemistry and biophysics It reflects the author's journey in his desire to understand life by looking at cells animals bacteria molecules and electrons as well as his observations on cancer Organized into eight chapters this volume begins with an overview of the scientific community's longstanding pursuit to understand life and its origins It then discusses water as an essential medium of organic matter on which life's machinery is built along with the motion of muscle biological stability and the paradox of evolution the energetics of the biosphere based on the interaction of hydrogen and oxygen the principles of defense against cellular damage and how defense is linked to the regulation of growth in plants and animals The reader is also introduced to growth regulation as a defense mechanism which corrects mechanical injury in animals the way that ketone aldehydes inhibit cell division the theory of cancer and cancer therapy Biologists chemists and physicists will find this book an interesting read **The Invisible**

Rainbow Arthur Firstenberg, 2020-02-28 The most misunderstood force driving health and disease The story of the invention and use of electricity has often been told before but never from an environmental point of view The assumption of safety and the conviction that electricity has nothing to do with life are by now so entrenched in the human psyche that new research and testimony by those who are being injured are not enough to change the course that society has set Two increasingly isolated worlds that inhabited by the majority who embrace new electrical technology without question and that inhabited by a growing minority who are fighting for survival in an electrically polluted environment no longer even speak the same language In **The Invisible Rainbow** Arthur Firstenberg bridges the two worlds In a story that is rigorously scientific yet easy to read he provides a surprising answer to the question How can electricity be suddenly harmful today when it was safe for centuries **Anticancer Research** ,1998 **The Lancet London** ,1831 **A system of surgery, tr. and accompanied with notes and observations b J.F. South** Maximilian Joseph Chelius, 1847 **Uniform Trade List Annual** ,1977

The Lancet ,1852 **Wilhelm Reich, Biologist** James E. Strick, 2015-04-01 Wilhelm Reich's experiments in the 1930s with cutting edge light microscopy and time lapse micro cinematography were considered discredited but not because of shoddy lab technique as has been claimed Scientific opposition to Reich's experiments James Strick argues grew out of resistance to his unorthodox sexual theories and Marxist leanings **AAAS Science Book List Supplement** American Association for the Advancement of Science, 1978 Approximately 2700 titles arranged in classified order Each entry gives bibliographical information annotation and reading levels Author and title subject indexes **Education of Cancer Healing Vol. VII - Heretics** Peter Havasi, 2012
