The Logic Of Culture Advances In Structural Theory And Methods:

The Logic of Culture Ino Rossi,1982-05-30 *The Power of Huacas* Claudia Brosseder,2014-07-01 The role of the religious specialist in Andean cultures of the sixteenth seventeenth and eighteenth centuries was a complicated one balanced between local traditions and the culture of the Spanish In *The Power of Huacas* Claudia Brosseder reconstructs the dynamic interaction between religious specialists and the colonial world that unfolded around them considering how the discourse about religion shifted on both sides of the Spanish and Andean relationship in complex and unexpected ways In *The Power of Huacas* Brosseder examines evidence of transcultural exchange through religious history anthropology and cultural studies Taking Andean religious specialists or hechizeros sorcerers in colonial Spanish terminology as a starting point she considers the different ways in which Andeans and Spaniards thought about key cultural and religious concepts Unlike previous studies this important book fully outlines both sides of the colonial relationship Brosseder uses extensive archival research in Bolivia Chile Ecuador Peru Spain Italy and the United States as well as careful analysis of archaeological and art historical objects to present the Andean religious worldview of the period on equal footing with that of the Spanish Throughout the colonial period she argues Andean religious specialists retained their own unique logic which encompassed specific ideas about holiness nature sickness and social harmony *The Power of Huacas* deepens our understanding of the complexities of assimilation showing that within the maelstrom of transcultural exchange in the Spanish Americas European paradigms ultimately changed more than Andean ones *Book of the Fourth World* Gordon Brotherston,1995-11-24 The *Book of the Fourth World* offers detailed analyses of texts that range far back into the centuries of civilised life from what is now Latin and Anglo America At the time of its discovery the American continent was identified as the Fourth World of our planet In the course of just a few centuries its original inhabitants though settled there for millennia and countable in many millions have come to be perceived as a marginal if not entirely dispensable factor in the continent s destiny Today the term has been taken up again by its native peoples to describe their own world both its threatened present condition and its political history which stretches back thousands of years before Columbus In order to explore the literature of this world Brotherston uses primary sources that have traditionally been ignored because they have not conformed to Western definitions of oral and written literature such as the scrolls of the Algonkin the knotted strings Quipus of the Inca Navajo dry paintings and the encyclopedic pages of Meso America s screenfold books **Powerful Places in the Ancient Andes** Justin Jennings,Edward R. Swenson,2018-11-15 Andean peoples recognize places as neither sacred nor profane but rather in terms of the power they emanate and the identities they materialize and reproduce This book argues that a careful consideration of Andean conceptions of powerful places is critical not only to understanding Andean political and religious history but to rethinking sociological theories on landscapes more generally The contributors evaluate ethnographic and ethnohistoric analogies against the material record to illuminate the ways landscapes were experienced and politicized over the last three thousand

years **The Sacred Landscape of the Inca** Brian S. Bauer, 2010-07-22 The ceque system of Cusco the ancient capital of the Inca empire was perhaps the most complex indigenous ritual system in the pre Columbian Americas From a center known as the Coricancha Golden Enclosure or the Temple of the Sun a system of 328 huacas shrines arranged along 42 ceques lines radiated out toward the mountains surrounding the city This elaborate network maintained by ayllus kin groups that made offerings to the shrines in their area organized the city both temporally and spiritually From 1990 to 1995 Brian Bauer directed a major project to document the ceque system of Cusco In this book he synthesizes extensive archaeological survey work with archival research into the Inca social groups of the Cusco region their land holdings and the positions of the shrines to offer a comprehensive empirical description of the ceque system Moving well beyond previous interpretations Bauer constructs a convincing model of the system's physical form and its relation to the social political and territorial organization of Cusco *Handbook of Inca Mythology* Paul Richard Steele, 2004-12-08 The first introduction to the Incas and their myths aimed at students and general readers bringing together a wealth of information into one convenient resource Full of hard to find information *Handbook of Inca Mythology* provides an accessible introduction to the rites beliefs and spiritual tales of the Incas It provides a concise overview of Incan civilization and mythology a chronology of mythic and historical events and an A Z inventory of central themes sacrifice fertility competition reversaldualism colors constellations giants and miniatures personages Viracocha Manco Capac Pachacuti Inca locations Lake Titicaca Coricancha rituals and icons The last Native American culture to develop free of European influence the Incas who had no written language are known only from Spanish accounts written after the conquest and archaeological finds From these fragments a vanished world has been reborn and reintroduced into modern Andean life There is no better way into that world and its mind bending mythology than this unique handbook **Critical Digital Studies** Arthur Kroker, Marilouise Kroker, 2013-12-11 Since its initial publication *Critical Digital Studies* has proven an indispensable guide to understanding digitally mediated culture Bringing together the leading scholars in this growing field internationally renowned scholars Arthur and Marilouise Kroker present an innovative and interdisciplinary survey of the relationship between humanity and technology The reader offers a study of our digital future a means of understanding the world with new analytic tools and means of communication that are defining the twenty first century The second edition includes new essays on the impact of social networking technologies and new media A new section New Digital Media presents important new articles on topics including hacktivism in the age of digital power and the relationship between gaming and capitalism The extraordinary range and depth of the first edition has been maintained in this new edition *Critical Digital Studies* will continue to provide the leading edge to readers wanting to understand the complex intersection of digital culture and human knowledge **Frontiers of Globalization Research:** Ino Rossi, 2007-03-21 To bring this volume together the editor asked leading scholars in the field of globalization to outline a research framework that reflects their own approach to the subject The resulting book presents a broad spectrum of

analytical approaches to globalization Theoretical reviews are complemented by substantive chapters and methodological analyses Contributors include scholars in the fields of sociology anthropology history and political science These writings have been organized into four sections theoretical perspectives and cultural globalization economic globalization political globalization and methodological approaches **Claude Lévi-Strauss and the Making of Structural Anthropology** Marcel Hénaff,1998 As anthropology continues to transform itself this book affords a broad and balanced account of the remarkable accomplishments of one of the great intellectual innovators of the 20th century It presents an authoritative and accessible analysis of Claude Levi Strauss s research in anthropological theory and practice as well as his contributions to debates surrounding linguistics epistemology ethics and aesthetics [The Semiotic Web 1987](#) Thomas A.
