Coats,2005-08-08 Following an introduction to the key ideas of Coats this work focuses on two themes the difference between British and American economics both in content and in the practice of the profession and the interrelationships between economic ideas events or conditions and policy issues *Greed, Self-Interest and the Shaping of Economics* Rudi Verburg,2018-03-15 Since 2008 profound questions have been asked about the driving forces and self regulating potential of the economic system political control and morality With opinion turning against markets and self interest economists found themselves on the wrong side of the argument This book explores how the past of economics can contribute to today s debates The book considers how economics took shape as philosophers probed into the viability of commercial society and its potential to generate positive sum outcomes It explains how dreams of affluence morality and happiness were built upon human greed and vanity It covers the bumpy road of the construction and reconstruction of this dream exploring the debate on the foundations conditions and limitations of the idea of the social utility of greed and vanity Revisiting this debate provides a rich source of ideas in rethinking economics and the basic beliefs concerning our economic system today **The**

Historiography of Economics A.W. Bob Coats,2013-10-08 This is the third and final volume of collected papers of A W Bob Coats Coats began to collect material for this volume in the years following the publication of the second volume in 1993 but sadly died in 2007 before the work was completed The volume has now been completed under the editorship of Roger Backhouse and Bruce Caldwell Along with his articles the compilation of the volume also reflects Coats interest in and commitment to book reviews a selection of which have been chosen for inclusion The book also includes a comprehensive bibliography In addition to a preface by Backhouse and Caldwell the volume also reproduces the obituary that was published in History of Political Economy a memoir published in 1996 and an interview with Grant Fleming published the previous year Together the introductory materials articles and reviews serve as a fitting tribute to the body of work of Bob Coats

Economics and the Philosophy of Science Deborah A. Redman,1991 Economists and other social scientists in this century have often supported economic arguments by referring to positions taken by philosophers of science This important new book looks at the reliability of this practice and in the process provides economists social scientists and historians with the necessary background to discuss methodological matters with authority Redman presents an accurate critical yet neutral survey of the modern philosophy of science from the Vienna Circle to the present focusing particularly on logical positivism

sociological explanations of science Polanyi Fleck Kuhn the Popper family and the history of science She then deals with economic methodology in the twentieth century looking at a wide range of methodological positions especially those supported by positions from the philosophy of science *The Philosophy of Economics* Daniel M. Hausman, 1994-02-25 Expanded and updated coverage of such key areas as positivism and economic methodology as well as special methodological problems and perspectives enhances this new edition of twenty two classic and more recent pivotal investigations into the philosophy of economics **Beyond Rhetoric and Realism in Economics** Thomas A. Boylan, Paschal Francis O'Gorman, 1995 Boylan and O Gorman inject a fresh empiricist voice into the debate on economic methodology They strike a reasonable middle ground between the extremes of scientific realism and the rhetoric of economics **The History of Economic Thought** Steven G Medema, Warren J. Samuels, 2013-05-29 From the ancients to the moderns questions of economic theory and policy have been an important part of intellectual and public debate engaging the attention of some of history's greatest minds This book brings together readings from more than two thousand years of writings on economic subjects Through these selections the reader can see first hand how the great minds of past grappled with some of the central social and economic issues of their times and in the process enhanced our understanding of how economic systems function This collection of readings covers the major themes that have preoccupied economic thinkers throughout the ages including price determination and the underpinnings of the market system monetary theory and policy international trade and finance income distribution and the appropriate role for government within the economic system These ideas unfold develop and change course over time at the hands of scholars such as Aristotle St Thomas Aquinas John Locke Francois Quesnay David Hume Adam Smith Thomas Robert Malthus David Ricardo John Stuart Mill Karl Marx William Stanley Jevons Alfred Marshall Irving Fisher Thorstein Veblen John Maynard Keynes Milton Friedman and Paul Samuelson Each reading has been selected with a view to both enlightening the reader as to the major contributions of the author in question and to giving the reader a broad view of the development of economic thought and analysis over time This book will be useful for students scholars and lay people with an interest in the history of economic thought and the history of ideas generally
