The Londonderry Plantation 1609-1641 Theodore William Moody, 1939 *The plantation of Ulster* Micheál Ó Siochrú, Eamonn O' Ciardha, 2021-02-02 This book is the first major academic study of the Ulster Plantation in over 25 years. The pivotal importance of the Plantation to the shared histories of Ireland and Britain would be difficult to overstate. It helped secure the English conquest of Ireland and dramatically transformed Ireland's physical, political, religious, and cultural landscapes. The legacies of the Plantation are still contested to this day, but as the Peace Process evolves and the violence of the previous forty years begins to recede into memory, vital space has been created for a timely reappraisal of the plantation process and its role in identity formation within Ulster, Ireland, and beyond. This collection of essays by leading scholars in the field offers an important redress in terms of the previous coverage of the plantations, moving away from an exclusive colonial perspective to include the native Catholic experience and, in so doing, will hopefully stimulate further research into this crucial episode in Irish and British history.
