Welham John Harwood Hill,1867 *Elixir* Brian Fagan,2011-06-07 *Elixir* spans five millennia from ancient Mesopotamia to
the parched present of the Sun Belt As Brian Fagan shows every human society has been shaped by its relationship to our
most essential resource Fagan's sweeping narrative moves across the world from ancient Greece and Rome whose mighty
aqueducts still supply modern cities to China where emperors marshaled armies of laborers in a centuries long struggle to
tame powerful rivers He sets out three ages of water In the first age lasting thousands of years water was scarce or at best
unpredictable so precious that it became sacred in almost every culture By the time of the Industrial Revolution human
ingenuity had made water flow even in the most arid landscapes This was the second age water was no longer a mystical
force to be worshipped and husbanded but a commodity to be exploited The American desert glittered with swimming pools
with little regard for sustainability Today we are entering a third age of water As the earth's population approaches nine
billion and ancient aquifers run dry we will have to learn once again to show humility even reverence for this vital liquid To
solve the water crises of the future we may need to adapt the water ethos of our ancestors *The Nature Spirit* W. Raine
Grey,2023-05-23 Aloicius an immortal Nature Spirit has protected his homeland for over a thousand years Over time he
becomes more and more distraught after watching all his friends grow old and die without being able to do anything about it
After losing one of his closest friends Aloicius tries to stop natural death from being a part of nature by ripping his soul in
half However things do not go as planned and he ends up throwing nature out of balance Now Aloicius and his human
companion Lunette must travel across the twisted land to aid anyone in need of help and possibly bring balance back to
nature
