Richards, 2005-07 *Stepback: The Lost Art of Filipino Leadership* Lloyd A. Luna, 2018-06-05 More than 2 000 years ago our Filipino ancestors built the rice terraces out of the Cordillera Mountains in northern Philippines using a unique leadership philosophy Comparing this stunning man made structure with what we know today as the other Wonders of the Ancient World many of which were built by either salaried skilled workers or slaves on orders by individual reigning rulers the hand made rice terraces stand out for three intriguing reasons One they were constructed by freemen Two no single leader was ever identified to have taken credit for building them Three they stood the test of time This book paints an inspiring picture on how the so called barbaric naive and uneducated ancient Filipino society has constructed and maintained a millennia old magnificent edifice of elaborate beauty which on the contrary speaks volumes of our great identity unique leadership philosophy and sustainable management ingenuity *The Lost Art of Disciple Making* LeRoy Eims, 2009-07-13 Every believer in Jesus Christ deserves the opportunity of personal nurture and development says LeRoy Eims But all too often the opportunity isn't there We neglect the young Christian in our whirl of programs church services and fellowship groups And we neglect to raise up workers and leaders who can disciple young believers into mature and fruitful Christians In simple practical and biblical terms LeRoy Eims revives the lost art of disciple making He explains How the early church disciplined new Christians How to meet the basic needs of a growing Christian How to spot and train potential workers How to develop mature godly leaders True growth takes time and tears and love and patience Eims states There is no instant maturity This book examines the growth process in the life of a Christian and considers what nurture and guidance it takes to develop spiritually qualified workers in the church **The Art of Leadership - 3rd Edition** Dag Heward-Mills, 2015-08 The call to ministry is a call to leadership Once again with an easy going and down to earth approach Dr Heward Mills expounds on principles that have made him an outstanding Christian leader The truths revealed here will inspire many to the art of leadership [The Lost Art of Banking](#) Aisling Tuite, 2019-02-27 This Palgrave Pivot explores the recent financial crisis from a new perspective Reflecting on 40 years of banking experiences the book will open new avenues to understanding banking and comment on possible ways to rehabilitate banking organisations In 1965 the Bank of Ireland received a consultancy report from McKinsey Company

which heralded a new phase in banking practice and organisation In the years that followed the Bank of Ireland opened up its once traditional culture to outside influences changing the way work was done and workers were viewed Direct competition was introduced alongside specialisation of roles and hence college education was identified as the way to meet demands of the market and bankers began to develop a full suite of products to keep customers loyal The once professional bank manager who was a guardian of good practice eventually became absorbed into the needs of the leviathan organisation The end result is an unimaginable and interlinked financial crisis in 2008 that swept across Ireland and the globe This book explores banking organisation and practice as it transforms and across the period from 1960 to 2018 It argues that organisational goals over individual responsibility paved the pathway towards crisis Organisationally anxiety and fear of failure took the place of certainty and stability While the financial crisis is coming to an end banking organisations remains fragile and prone to influences that may lead them towards a path of continuous cycles of boom and bust Such a state has the potential to create an unending cycle of boom and bust and the end of stability and the institution of banking This book shines a light on that and will be of interest to banking and finance researchers students and practitioners

The Lost Art of Drawing the Line Philip K. Howard,2001-06-12 The Lost Art of Drawing the Line will appall and irritate and entertain readers every bit as much as Philip Howard s first book Why is it that no one can fix the schools Why do ordinary judgements fill doctors with fear Why are seesaws disappearing from playgrounds Why has a wave of selfish people overtaken America In our effort to protect the individual against unfair decisions we have created a society where no one s in charge of anything Silly lawsuits strike fear in our hearts because judges don t think they have the authority to dismiss them Inner city schools are filthy and mired in a cycle of incompetence because no one has the authority to decide who s doing the job and who s not When no one s in charge we all lose our link to the common good When principals lack authority over schools of what use are the parents views When no one can judge right and wrong why not be as selfish as you can be Philip Howard traces our well meaning effort to protect individuals through the twentieth century with the unintended result that we have lost much of our individual freedom Buttressed with scores of stories that make you want to collar the next self centered jerk or hapless bureaucrat The Lost Art of Drawing the Line demonstrates once again that Philip Howard is trying to drive us all sane
