The Handbook Of Marriage And Marital Therapy:

The Handbook of Marriage and Marital Therapy G. Pirooz Sholevar, 2013-11-11 **The Handbook of Marriage and Marital Therapy** G. Pirooz Sholevar, 1981 **Handbook of Marital Therapy: A Positive Approach to Helping Troubled Relationships** Robert P. Liberman, Eugene G. Wheeler, Louis A.J.M. de Visser, Julie Kuehnelt, Timothy Kuehnelt, 2013-11-21 In the treatment of marital problems behaviorally oriented and communication oriented approaches have been in conflict and seen as contrasting and unlikely bed partners Many therapists focusing on communication skills have felt that behaviorists were too structured and uncaring on the other hand behaviorists have considered humanistic therapists as being touchy feely vague and unfocused However in the Handbook of Marital Therapy Liberman Wheeler de Visser and the Kuehnelns have wedded these two potent approaches into an integrated framework that makes them loving bed partners With over a decade of experience in applying behaviorally oriented treatment to couples Liberman and his co authors have developed an educational model that focuses on teaching specific communication skills to couples The communication skills they describe have been used extensively in all types of marital therapy regardless of the therapist s theoretical orientation The unique contribution of this book is that the authors provide a step by step approach to teaching these communication skills within a behavioral framework Each chapter guides the therapist through the many issues and problems confronting him or her as a change agent This highly readable book is enhanced by a liberal use of case examples Emphasis is given to homework and structured sessions that focus on increasing specific communication skills in a sequential manner The advantages of working with couples in a group setting are discussed and concrete suggestions on how to manage these groups are clearly presented **Handbook of Marriage Counseling** Ben N. Ard, Constance C. Ard, 1969

Clinical Handbook of Marriage and Couples Interventions W. Kim Halford, Howard J. Markman, 1997-04-03 The majority of people in cultures worldwide seek fulfilment and happiness in marriage and couples relationships Many mental health professionals now find they are increasingly consulted when such relationships encounter difficulties that threaten the wellbeing of the couples involved The costs of such difficulties can be high to society to children and to other family members in both emotional and economic terms Psychologists psychiatrists therapists counsellors and social workers will find in this uniquely comprehensive handbook a critical review of knowledge in this wide field as well as a guide to best practice in its many areas of intervention The scope of the handbook includes an overview of healthy normal marriage processes the major influences on marital quality and stability the interaction between individual adjustment environmental events and relationship satisfaction and interventions designed to assist couples to enhance their relationship The emphasis in the chapters which review research is on explicating the implications of current state of the art knowledge for assessment and intervention with couples Over half the book comprises detailed guidelines on how to conduct interventions for relationship problems This includes work on different approaches to couples therapy adapting couples therapy to the needs of couples in which one partner has significant individual psychopathology working with just one partner responding to crises initiated by extramarital affairs mediating divorce and working with families in which there are combined marital and parenting difficulties

Handbook of Family and Marital Therapy Sharon A. Shueman, Benjamin B. Wolman, 2012-12-06 Family and marital therapies are rapidly becoming highly used methods of treatment of mental disorders and are no longer ancillary methods to individual psychotherapy The

last few decades have brought about an increasing awareness of the fact that excluding organic etiology practically all mental disorders are caused fostered and or related to faulty interpersonal relations As a rule the earlier in life one is exposed to noxious factors the more severe is the damage Thus early child parents and child siblings interactions are highly relevant determinants of mental health and mental disorder Moreover parents themselves do not live in a vacuum Their marital interaction significantly contributes to their own mental health or to its decline and parent child relationships are greatly influenced by the nature of intraparental relationships Parental discord conflicts and abandonment affect the child s personality development Thus family and marital therapy is more than therapy it is an important contribution to the prevention of mental disorder The present volume is comprised of three parts The first primarily theoretical analyzes the fundamental aspects of marital and family therapy The second part describes the various therapeutic techniques and the last deals with several specific issues It gives me great pleasure to acknowledge my gratitude to my coeditor Dr George Stricker Without his thorough and devoted efforts this volume could not have come into being I am also profoundly indebted to our consulting editors Dr James Framo Dr
