Nature Shock Jon T. Coleman,2020-08-12 An award winning environmental historian explores American history through wrenching tragic and sometimes humorous stories of getting lost The human species has a propensity for getting lost The American people inhabiting a mental landscape shaped by their attempts to plant roots and to break free are no exception In this engaging book environmental historian Jon Coleman bypasses the trailblazers so often described in American history to follow instead the strays and drifters who went missing From Hernando de Soto s failed quest for riches in the American southeast to the recent trend of getting lost as a therapeutic escape from modernity this book details a unique history of location and movement as well as the confrontations that occur when our physical and mental conceptions of space become disjointed Whether we get lost in the woods the plains or the digital grid Coleman argues that getting lost allows us to see wilderness anew and connect with generations across five centuries to discover a surprising and edgy American identity

Trail of the Lost Andrea Lankford,2023-08-22 From an award winning former law enforcement park ranger and investigator this female driven true crime adventure follows the author s quest to find missing hikers along the Pacific Crest Trail by pairing up with an eclectic group of unlikely allies As a park ranger with the National Park Service s law enforcement team Andrea Lankford led search and rescue missions in some of the most beautiful and dangerous landscapes across America from Yosemite to the Grand Canyon But though she had the support of the agency Andrea grew

frustrated with the service's bureaucratic idiosyncrasies and left the force after twelve years. Two decades later, however, she stumbles across a mystery that pulls her right back where she left off: three young men have vanished from the Pacific Crest Trail, the 2,650-mile trek made famous by Cheryl Strayed's *Wild*, and no one has been able to find them. It's bugging the hell out of her. Andrea's concern soon leads her to a wild environment unlike any she's ever encountered: missing person Facebook groups. Andrea launches an investigation, joining forces with an eclectic team of amateurs who are determined to solve the cases by land and by screen: a mother of the missing, a retired pharmacy manager, and a mapmaker who monitors terrorist activity for the government. Together, they track the activities of kidnappers and murderers, investigate a cult, rescue a psychic in peril, cross paths with an unconventional scientist, and reunite an international fugitive with his family. Searching for the missing is a brutal psychological and physical test with the highest stakes, but eventually their hardships begin to bear strange fruits, ones that lead them to places and people they never saw coming. Beautifully written, heartfelt, and at times harrowing, *TRAIL OF THE LOST* paints a vivid picture of hiker culture and its complicated relationship with the ever-expanding online realm, all while exploring the power and limits of determination, generosity, and hope. It also offers a deep awe of the natural world, even as it unearths just how vast and treacherous it can be. On the *TRAIL OF THE LOST*, you may not find what you are looking for, but you will certainly find more than you seek. **THE INSTANT NEW YORK TIMES BESTSELLER** **Rookwood ...
