Soundings on South Asia Syed Ali Mujtaba, 2005 Contains 70 articles that discuss the unity in diversity which makes South Asian culture unique These short essays focus on individual countries within the greater South Asian context in order to understand the dynamics that block regional integration *Sounding the Indian Ocean* Jim Sykes, 2023-09-26

Providing numerous case studies ranging across the Indian Ocean across disparate time periods and historical and ethnographic approaches *Sounding the Indian Ocean* Musical Circulations in the Afro Asiatic Seascape brings together the disciplines of Indian Ocean and music studies As glimpsed above in the Sufi and Catholic networks connecting South and Southeast Asia the chapters in this volume explore how music helps materialize networks of connection across the Indian Ocean Region IOR and in several of its distinct locales Our focus is not simply the well worn tropes of Indian Ocean cosmopolitanism however nor a definition of the IOR as a site for the harmonious mixing of populations though some of our chapters do one or both of these Rather we show how music contributes to placemaking in distinct Indian Ocean worlds Srinivas et al 2020 Instead of defining music's value in its ability to provide either narratives of identity formation or the celebration of mixture *Sounding the Indian Ocean* explores the role music plays in both boundary formation and boundary crossing in Indian Ocean contexts past and present *Proceedings*, 1968 *Sound Practices in the Global South*

Budhaditya Chattopadhyay, 2022-08-01 This book develops a comprehensive understanding of the unique sound worlds of key regions in the Global South through an auto ethnographic method of self reflective conversations with prominent sound practitioners from South Asia Africa the Middle East and Latin America The conversations navigate various trajectories of sound practices illuminating intricate sonic processes of listening thinking through sounds ideating exposing and performing with sound This collection of conversations constitutes the main body of the book including critical and scholarly commentaries on aural cultures sound theory and production The book builds a ground up approach to nurturing knowledge about aural cultures and sonic aesthetics moving beyond the Eurocentric focus of contemporary sound studies Instead of understanding sound practices through consumption and entertainment they are explored as complex cultural and aesthetic

systems working directly with the practitioners themselves who largely contribute to the development of the sonic methodologies Refocusing on the working methods of practitioners the book reveals a tension between the West's predominant colonial consumerist cultures and the collective desires of practitioners to resist colonial models of listening by expressing themselves in terms of their arts and craft and their critical faculties Conversations with Clarence Barlow Sandeep Bhagwati Rajesh K Mehta Sharif Sehnaoui Ximena Alarcón Daz Hardi Kurda Mario de Vega Luka Mukhavele Khyam Allami Cedrik Fermont Khaled Kaddal David Velez Juan Duarte Youmna Saba Abdellah M Hassak Mariana Marcassa Amanda Gutierrez Syma Tariq Alma Laprida Siamak Anvari Mohamad Safa Debashis Sinha Zouheir Atbane Constanza Bizraelli Jatin Vidyarthi Joseph Kamaru Surabhi Saraf Isuru Kumarasinghe Hemant Sreekumar Sounding the Dance, Moving the Music Mohd Anis Nor, Kendra Stepputat, 2016-07-01 Performing arts in most parts of Maritime Southeast Asia are seen as an entity where music and dance sound and movement acoustic and tactile elements intermingle and complement each other Although this fact is widely known and referenced most scholarly works in the performing arts so far have either focused on music or dance rather than treating the two in combination The authors in this book look at both aspects in performance moreover they focus explicitly on the interrelation between the two on both descriptive analytical and metaphorical levels The book includes diverse examples of regional performing art genres from Indonesia Malaysia and the Philippines All case studies are composed from the perspective of the relatively new approach and field of ethno choreomusicology This particular compilation gives an exemplary overview of various phenomena in movement sound relations and offers for the first time a thorough study of the phenomenon that is considered essential for the performing arts in Maritime Southeast Asia the inseparability of movement and sound **NASA Thesaurus**, 1998 Contains the authorized subject terms by which the documents in the NASA STI Database are indexed and retrieved **Southeast Asia** United States.
