Sourcebook In Asian Philosophy:

A Sourcebook in Asian Philosophy John M. Koller, Patricia Joyce Koller, 1991 A convenient one volume collection of English translations of the basic text that have shaped the major Asian philosophical traditions *Japanese Philosophy* James W. Heisig, Thomas P. Kasulis, John C. Maraldo, 2011-07-31 With *Japanese Philosophy A Sourcebook* readers of English can now access in a single volume the richness and diversity of Japanese philosophy as it has developed throughout history. Leading scholars in the field have translated selections from the writings of more than a hundred philosophical thinkers from all eras and schools of thought many of them available in English for the first time. The Sourcebook editors have set out to represent the entire Japanese philosophical tradition not only the broad spectrum of academic philosophy dating from the introduction of Western philosophy in the latter part of the nineteenth century but also the philosophical ideas of major Japanese traditions of Buddhism, Confucianism and Shinto. The philosophical significance of each tradition is laid out in an extensive overview and each selection is accompanied by a brief biographical sketch of its author and helpful information on placing the work in its proper context. The bulk of the supporting material which comprises nearly a quarter of the volume is given to original interpretive essays on topics not explicitly covered in other chapters: cultural identity, samurai thought, women philosophers, aesthetics, bioethics. An introductory chapter provides a historical overview of Japanese philosophy and a discussion of the Japanese debate over defining the idea of philosophy both of which help explain the rationale behind the design of the Sourcebook. An exhaustive glossary of technical terminology, a chronology of authors and a thematic index are appended. Specialists will find information related to original sources and sinographs for Japanese names and terms in a comprehensive bibliography and general index. Handsomely presented and clearly organized for ease of use. *Japanese Philosophy A Sourcebook* will be a cornerstone in Japanese studies for decades to come. It will be an essential reference for anyone interested in traditional or contemporary Japanese culture and the way it has shaped and been shaped by its great thinkers over the centuries.

Buddhist Literature as Philosophy, Buddhist Philosophy as Literature Rafal K. Stepień, 2020-11-01 Can literature reveal reality Is philosophical truth a literary artifice How does the way we think affect what we can know Buddhism has been grappling with these questions for centuries and this book attempts to answer them by exploring the relationship between literature and philosophy across the classical and contemporary Buddhist worlds of India Tibet China Japan Korea and North America Written by leading scholars the book examines literary texts composed over two millennia ranging in form from lyric verse narrative poetry panegyric hymn and koan to novel hagiography secret autobiography autofiction treatise and sutra all in sustained conversation with topics in metaphysics ethics aesthetics and the philosophies of mind language literature and religion Interdisciplinary and cross cultural this book deliberately works across and against the boundaries separating three mainstays of humanistic pursuit literature philosophy and religion by focusing on the multiple relationships at play between content and form in works drawn from a truly diverse range of philosophical schools literary genres religious cultures and historical eras Overall the book calls into question the very ways in which we do philosophy study literature and think about religious texts It shows that Buddhist thought provides sophisticated responses to some of the perennial problems regarding how we find create and apply meaning on the page in the mind and throughout our lives

Philosophie asiatique/Asian philosophy Guttorm Fløistad, 2012-12-06 The present publication is a continuation of two earlier series of chronicles Philosophy in the Mid Century Firenze 1958 59 and Contemporary Philosophy Firenze 1968 edited by Raymond Klibansky As with the earlier series the present surveys purport to give a survey of significant trends in contemporary philosophical discussion The need for such surveys has I believe increased rather than decreased over the last years The philosophical scene appears for various reasons rather more complex than ever before The continuing process of specialization in most branches the emergence of new schools of thought particularly in philosophical logic in the philosophy of language and in social and political philosophy the increasing attention being paid to the history of philosophy in discussions of contemporary problems as well as the increasing interest in cross cultural philosophical discussion are the most important contributory factors Surveys of the present kind are a valuable source of knowledge about this complexity

and may as such be of assistance in renewing the understanding of one's own philosophical problems. The surveys it is to be hoped may help to strengthen the Socratic element of modern philosophy, the world-wide dialogue or Kommunikationsgemeinschaft. So far six volumes have been prepared for the new series. The present surveys in Asian Philosophy Vol 7 follow the surveys in the Philosophy of Language and Philosophical Logic Vol I, Philosophy of Science Vol 2, Philosophy of Action Vol 3, Philosophy of Mind Vol 4, African Philosophy Vol 5, and Medieval Philosophy Part 1, 2 Vol 6.
