A Hidden History of Youth Development in South Africa

Margaret Perrow, 2021-03-15 Drawing on two decades of interviews and ethnographic fieldwork 1998 2018 this book presents a unique and multi faceted history of youth development in South Africa through the lens of a South African non governmental organization NGO prominent in youth development from the mid 1980s until 2008 The book weaves history ethnography and discourse analysis to contextualize the Joint Enrichment Project JEP in the politics and history of South African education It examines JEP s role leading up to and during South Africa s transition to democracy its work and influence in post apartheid South Africa and the continued relevance of its legacy to contemporary initiatives seeking to address youth development and social justice While JEP repeatedly repositioned itself as an organization from fighting the effects of apartheid on young people to becoming a potential partner with the new African National Congress ANC led government its most significant role may have been to reposition people After tracing JEP s twenty year history the book focuses on the participants in a 1998 Youth Work Scheme exploring their learning experiences and the program s immediate impact on their lives It then revisits these participants twenty years later in 2018 analyzing their life trajectories after JEP and comparing them with the life trajectories of former JEP staff over the same period shedding light on broader patterns of socio economic reproduction and change in the country The book concludes with a discussion of a perennial paradox facing youth development institutions This book will be of great interest to academics researchers and post graduate students in the fields of education international development anthropology and African studies

Inside South Africa's Foreign Policy John Siko, 2014-06-16 South Africa is still the major player in African diplomacy its military resources far outstripping those of other nations on the continent It also has traditionally taken the lead role in

Africa's united negotiations with other power blocs. Yet the recent consensus has been that South Africa's diplomacy over the last decades has been a disappointing failure from appearing to back the controversial Mugabe regime to accusations that it is failing to utilize its position to encourage Chinese investment. John Siko has had insider access to the corridors of power in South Africa and with access to the major political players charts the inability of South Africa to develop a coherent policy over the last four decades. In particular he reveals the tight grip Mbeki has over foreign policy to the detriment of SA's standing in the world and argues South Africa's isolationist style of policy making has not changed enough after Mandela's election in 1994.
