South Africa A Plural Society In Transition:

South Africa D. J. Van Vuuren, 1985 **South Africa** Siri Gloppen, 2019-05-23 Originally published in 1997 *South Africa The Battle over the Constitution* analyses rivaling positions in the South African constitutional debate from the early 1990s via the 1993 interim constitution to the adoption and certification of the new Final Constitution in December 1996 A theoretical framework is developed to analyze the constitutional structure of the contesting constitutional models and the book looks into their potential for addressing the problems of violence social inequality and ethnic tension and for achieving legitimacy and constitutionalism It argues that the constitutional solutions are premised on incomparable conceptions of South African reality and that the Final Constitution includes elements based on incompatible world views The compromises required by the constitutional moment could pose problems for the constitutional function The book also discusses other factors influencing the consolidation of a constitutional democracy in South Africa such as the role of the Constitutional Court and the attempts to create legitimacy for the constitution by broad public participation in the constitution making process Intergroup Accommodation in Plural Societies Nic Rhoodie, 1978-06-17 The National Liberation Struggle in South Africa Gregory F. Houston, 2019-05-23 First published in 1999 this volume follows the interactions between the United Democratic Front UDF and the African National Congress ANC and Pan Africanist Congress PAC which had adopted more revolutionary strategies after their banning in 1960 over the period 1983-87 Only a few studies of the UDF have aimed to link revolutionary developments in 1980s South Africa with theories of revolutionary strategy and tactics This volume focuses on the relation between revolutionary theory praxis and the formation aims policies and practices of the UDF Houston argues that the formulation of the UDF met certain strategic and tactical requirement of Lenin and Gramsci's theories of revolutionary strategy repositioning the UDF as becoming a Leninist vanguard party with its affiliate membership operating largely underground The volume features 6 detailed maps of the Cape Town area the Republic of South Africa in the 1980s the Johannesburg area the Durban area the Pretoria area and the Northern Transvaal **The South African State Transformed?** Louis A. Picard, Thomas M. Mogale, Caitlin C. Corrigan, 2024-09-10 This book examines the nature of the 1994 political transition in South Africa and its impact on post apartheid South Africa Specifically it examines the failures of liberalism within the context of the transitional process that led to the institution if not the practice of a non racial state in 1994 The term liberal is an eclectic term defining a several of views political and economic We use the term here within context but essentially define it as a commitment to open views the willingness to consider change and to value basic human rights The nature of institutional change in South Africa as it moved towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist democratic country or collapse into yet another African failed state As South Africa moves toward its fourth decade of majority rule the view towards the future is much less promising than it was in 1994 **South Africa's Foreign Policy** James Barber, John Barratt, 1990-04-19 An exceptionally thorough

study of South African foreign policy and the factors influencing its formation **Political Science in South Africa** Peter Vale, Pieter Fourie, 2016-01-13 In 2013 and in 2014 respectively the South African Association of Political Studies SAAPS and Politikon the South African Journal of Political Studies celebrate their 40th anniversary Also in April 2014 South Africa celebrates twenty years since the advent of the post Apartheid democracy and the birth of the rainbow nation This book provides a timely account of the birth and evolution of South African politics over the past four decades but also of the study of Political Science and International Relations in this country Fourteen political scientists contribute chapters to this volume situating the study of politics within its global context and recounting the development of politics as a field of study at South African universities The fourteen contributions evaluate the state of the discipline s and suggest conclusions that are surprising and in many instances unsettling not only with regards to what and how politics is taught but also how its study has variously gained and lost pertinence for South Africans understanding of their own polity as well as its place in the world The implications are uncomfortable and pose interesting challenges for South African scholarship pedagogy and national self reflection This book was published as a special issue of Politikon *Policing for a New South Africa* Mike Brogden, Clifford D. Shearing, 2005-08-04 Brogden is an international expert on police accountability and colonial police systems see below Shearing is a member of the Police Board of South Africa *South Africa in Crisis* Jesmond Blumenfeld, 2022-10-05 Originally published in 1987 South Africa in Crisis documents the perceptions and policies of all the major interest groups in South Africa during the 1980s when the long running struggle for ultimate political power in South Africa entered a new phase It analyses their responses to the state of ferment and vicious circle of political and economic decline which ensued in the anti apartheid struggle and examines the developing pressures both from within and outside the country Of particular importance for the process was the relationship between internal reactions to the crisis and the diverse and unprecedented set of political military and economic pressures which were interjected from abroad Changing Values, Persisting Cultures Thorleif Pettersson, Yilmaz R. Esmer, 2008 In 1981 the European and World Values surveys started the empirical investigation of cultural values on a global scale This volume builds upon the findings of these surveys and analyzes value change in a number of key countries around the globe The authors track value change and stability in their respective countries during the last decade the last two decades where data are available of the 20th century All authors have been actively involved in value surveys and have a great deal of expertise in countries that they write on Thus the volume is a valuable complement to studies that deal with the topic from a global perspective without providing any detail about individual societies The countries covered are Argentina Austria Canada Denmark France Germany Mexico the Netherlands South Africa South Korea Spain Sweden Turkey and the United States
